## RESULTS OF OPERATIONS

Set forth below are the results of operations for the years ended September 30, 2021 and 2020.

### Investment Income

Investment income for the three months ended September 30, 2021 and 2020 was \$23.1 million and \$21.3 million, respectively, and was primarily attributable to \$13.1 million and \$12.3 million from first lien secured debt, \$4.4 million and \$5.3 million from second lien secured debt and \$5.6 million and \$3.7 million from subordinated debt and preferred and common equity, respectively.

Investment income for the years ended September 30, 2021 and 2020 was \$81.6 million and \$100.2 million, respectively, and was attributable to \$47.0 million and \$63.4 million from first lien secured debt, \$20.2 million and \$25.9 million from second lien secured debt and \$14.4 million and \$10.9 million from subordinated debt and preferred and common equity, respectively. The decrease in investment income over the prior year was primarily due to a decrease in the London Inter-Bank Offered Rate, or LIBOR, and a lower average investment balance.

### Expenses

Net expenses for the three months ended September 30, 2021 and 2020 totaled \$11.9 million and \$14.0 million, respectively. Base management fee totaled \$4.6 million and \$4.4 million, incentive fee totaled \$0.6 million and zero, debt related interest and other financing costs totaled \$5.7 million and \$8.2 million (including one-time costs of \$2.2 million associated with the PSLF transaction), general and administrative expenses totaled \$0.9 million and \$1.2 million and provision for taxes totaled \$0.2 million and \$0.3 million, respectively, for the same periods.

Net expenses for the years ended September 30, 2021 and 2020 totaled \$45.1 million and \$61.5 million, respectively. Base management fee totaled \$17.3 million and \$18.6 million, incentive fee totaled \$0.6 million and \$2.7 million (after an incentive fee waiver of \$1.9 million), debt related interest and other financing expenses totaled \$22.5 million and \$34.4 million (including one-time costs of \$2.2 million associated with the PSLF transaction), general and administrative expenses totaled \$4.1 million and \$4.7 million and provision for taxes totaled \$0.6 million and \$1.2 million, respectively, for the same periods. The decrease in expenses over the prior year was primarily due to a decrease in debt related expenses and a decrease in incentive fees.

### Net Investment Income

Net investment income totaled \$11.3 million, or \$0.17 per share, and \$7.3 million, or \$0.11 per share, for the three months ended September 30, 2021 and 2020, respectively.

Net investment income totaled \$36.5 million, or \$0.54 per share, and \$38.7 million, or \$0.58 per share, for the years ended September 30, 2021 and 2020, respectively. The decrease in net investment income per share compared to the prior year was primarily due to a decrease in LIBOR.

### Net Realized Gains or Losses

Sales and repayments of investments for the three months ended September 30, 2021 and 2020 totaled \$75.8 million and \$48.6 million, respectively, and net realized gain (loss) totaled \$5.6 million and (\$10.1) million, respectively, for the same periods.

The change in realized gains/losses was primarily due to changes in the market conditions of our investments and the values at which they were realized, caused by the fluctuations in the market and in the economy.

### Unrealized Appreciation or Depreciation on Investments and Credit Facilities

For the three months ended September 30, 2021 and 2020, we reported a net change in unrealized appreciation on investments of \$7.6 million and \$21.3 million, respectively. As of September 30, 2021 and 2020, our net unrealized appreciation (depreciation) on investments totaled \$34.2 million and (\$83.8) million, respectively. The net change in unrealized appreciation/depreciation on our investments for the year ended September 30, 2021 compared to the prior year was primarily due to changes in the capital market conditions as well as the financial performance of certain portfolio companies primarily driven by the market disruption caused by the COVID-19 pandemic and the uncertainty surrounding its continued adverse economic impact. For more information on how the COVID-19 pandemic has affected our business and results of operations, see our Annual Report on Form 10-K for the fiscal year ended September 30, 2021, including "Item 2. our Credit Facilities totaled \$0.8 million and \$19.6 million, respectively. The net change in unrealized depreciation for the year ended September 30, 2021 compared to the prior year was primarily due to changes in the capital markets.

### Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled \$25.1 million, or \$0.37 per share, and \$9.5 million, or \$0.14 per share, for the three months ended September 30, 2021 and 2020, respectively.

Net change in net assets resulting from operations totaled \$166.6 million, or \$2.49 per share, and (\$16.0) million, or (\$0.24) per share, for the years ended September 30, 2021 and 2020, respectively. The increase in net assets from operations for the year ended September 30, 2021 compared to the prior year was primarily due to appreciation of the portfolio primarily driven by recovery from the market disruption caused by the COVID-19 pandemic and the uncertainty surrounding its continued adverse economic impact. For more information on how the COVID-19 pandemic has affected our business and results of operations, see our Annual Report on Form 10-K for the fiscal year ended September 30, 2021, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – COVID-19 Developments" and "Item 1A. Risk Factors" therein.

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives. For more information on how the COVID-19 pandemic may impact our ability to comply with the covenants of the Credit Facilities, see the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2021, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – COVID-19 Developments" and "Item 1A. Risk Factors" therein.

The annualized weighted average cost of debt for the years ended September 30, 2021 and 2020, inclusive of the fee on the undrawn commitment and amendment costs on the Credit Facilities, amortized upfront fees on SBA debentures and debt retirement and issuance costs, was 3.5% and 4.0%, respectively. As of September 30, 2021 and 2020, we had \$118.5 million and \$86.7 million of unused borrowing capacity under the Credit Facility, respectively, subject to leverage and borrowing base restrictions.

As of September 30, 2021 and 2020, we had \$316.5 million and \$388.3 million, respectively, in outstanding borrowings under the Credit Facility. The Credit Facility had a weighted average interest rate of 2.4% and 2.5%, respectively, exclusive of the fee on undrawn commitment, as of September 30, 2021 and 2020.

As of September 30, 2021 and 2020, we had cash and cash equivalents of \$20.4 million and \$25.8 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash primarily for our investment activities and our financing activities used cash primarily for net repayments under our Credit Facilities and the repayment of the SBA debentures.

Our operating activities used cash of \$129.6 million for the year ended September 30, 2020, and our financing activities provided cash of \$95.8 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily for net borrowings under our Credit Facilities.

We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.
