PORTFOLIO AND INVESTMENT ACTIVITY

“We are pleased with the progress we are making in several areas. Our activity and selectivity have resulted in a more senior secured portfolio, which should result in even more steady and stable coverage of our dividend,” said Art Penn, Chairman and CEO. “Additionally, our earnings stream should improve based on a gradual increase in our debt to equity ratio, while still maintaining a prudent debt profile.”

As of December 31, 2018, our portfolio totaled \$1,191.5 million and consisted of \$577.4 million of first lien secured debt, \$403.2 million of second lien secured debt, \$48.1 million of subordinated debt and \$162.8 million of preferred and common equity. Our debt portfolio consisted of 90% variable-rate investments and 10% fixed-rate investments. As of December 31, 2018, we had no companies on non-accrual. RESULTS OF OPERATIONS

Set forth below are the results of operations for the three months ended December 31, 2018 and 2017.

Investment Income

Investment income for the three months ended December 31, 2018 was \$27.4 million and was attributable to \$13.2 million from first lien secured debt, \$12.4 million from second lien secured debt and \$1.8 million from subordinated debt, respectively. Investment income for the three months ended December 31, 2017 was \$28.7 million and was attributable to \$12.7 million from first lien secured debt, \$12.9 million from second lien secured debt and \$3.1 million from subordinated debt, respectively. The decrease in investment income compared to the same period in the prior year was primarily due to a decrease in other income.

Expenses

Expenses for the three months ended December 31, 2018 totaled \$14.8 million. Base management fee for the same period totaled \$4.4 million, incentive fee totaled \$2.7 million, debt related interest and expenses totaled \$6.3 million, general and administrative expenses totaled \$1.1 million and provision for taxes totaled \$0.3 million. Net expenses for the three months ended December 31, 2017 totaled \$14.5 million. Base management fee for the same period totaled \$4.8 million (after a base management fee waiver of \$0.9 million), incentive fee totaled \$2.7 million (after an incentive fee waiver of \$0.5 million), debt related interest and expenses totaled \$5.9 million and general and administrative expenses totaled \$1.1 million. The increase in expenses compared to the same period in the prior year was primarily due to an increase in leverage, which resulted in an increased interest expense.

Net Investment Income

Net investment income totaled \$12.6 million, or \$0.18 per share, for the three months ended December 31, 2018, and \$14.2 million, or \$0.20 per share, for the three months ended December 31, 2017. The decrease in net investment income compared to the same period in the prior year was primarily due to a decrease in other income and an increase in leverage, which resulted in an increased interest expense.

Net Realized Gains or Losses

Sales and repayments of investments for the three months ended December 31, 2018 totaled \$125.8 million and net realized gains totaled \$8.5 million. Sales and repayments of investments for the three months ended December 31, 2017 totaled \$192.3 million and net realized gains totaled \$3.8 million. The change in realized gains/losses was primarily due to changes in the market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments, the Credit Facility and the 2019 Notes

For the three months ended December 31, 2018 and 2017, we reported net change in unrealized depreciation on investments of \$20.4 million and \$6.8 million, respectively. As of December 31, 2018 and September 30, 2018, our net unrealized depreciation on investments totaled \$132.2 million and \$111.8 million, respectively. The net change in unrealized appreciation/depreciation on our investments compared to the same period in the prior year was primarily due to changes in the capital market conditions, the financial performance of certain portfolio companies and the reversal of unrealized appreciation/depreciation on investments that were realized.

For the three months ended December 31, 2018 and 2017, our multi-currency, senior secured revolving credit facility, as amended and restated, or the Credit Facility, and the 4.50% notes due 2019, or 2019 Notes, had a net change in unrealized depreciation of \$6.1 million and \$1.1 million, respectively. As of December 31, 2018 and September 30, 2018, the net unrealized depreciation on the Credit Facility and the 2019 Notes totaled \$7.6 million and \$1.6 million, respectively. The net change in net unrealized depreciation compared to the same period in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled \$6.8 million, or \$0.10 per share, for the three months ended December 31, 2018. This compares to a net change in net assets resulting from operations of \$12.3 million, or \$0.18 per share, for the three months ended December 31, 2017. The decrease in the net change in net assets from operations compared to the same period in the prior year was primarily due to a lower yielding portfolio and depreciation of our investments.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

The annualized weighted average cost of debt for the three months ended December 31, 2018 and 2017, inclusive of the fee on the undrawn commitment and amendment costs on the Credit Facility, amortized upfront fees on Small Business Administration, or SBA, debentures and debt issuance costs, was 4.71% and 4.32%, respectively.

As of December 31, 2018 and September 30, 2018, we had \$174.1 million and \$80.5 million (including a \$2.0 million temporary draw), respectively, in outstanding borrowings under the Credit Facility. The Credit Facility had a weighted average interest rate of 4.39% and 3.79%, respectively, exclusive of the fee on undrawn commitments of 0.375%, as of December 31, 2018 and September 30, 2018. As of the same periods, we had \$270.9 million and \$364.5 million of unused borrowing capacity under our Credit Facility, respectively, subject to the regulatory restrictions.

As of December 31, 2018 and September 30, 2018, we had \$250.0 million in aggregate principal amount of 2019 Notes outstanding with a fixed interest rate of 4.50% per year. As of December 31, 2018 and September 30, 2018, we had \$150.0 million and \$180.0 million in SBA debentures outstanding, respectively.

As of December 31, 2018 and September 30, 2018, we had cash and cash equivalents of \$24.7 million and \$19.5 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash of \$38.6 million for the three months ended December 31, 2018, and our financing activities provided cash of \$43.7 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from net borrowings under the Credit Facility.

Our operating activities provided cash of \$62.4 million for the three months ended December 31, 2017, and our financing activities used cash of \$27.8 million for the same period. Our operating activities provided cash from sales and repayments on our investments and our financing activities used cash primarily to pay distributions to stockholders and repay the SBA debentures.

STOCK REPURCHASE PROGRAM

On May 9, 2018, we announced a share repurchase program which allows us to repurchase up to \$30 million of our outstanding common stock in the open market at prices below our net asset value as reported in our then most recently published consolidated financial statements. The shares may be purchased from time to time at prevailing market prices, through open market transactions, including block transactions. Unless extended by our board of directors, the program, which may be implemented at the discretion of management, will expire on the earlier of May 9, 2019 and the repurchase of \$30 million of common stock. For the three months ended December 31, 2018 and 2017, we repurchased 1.0 million and zero shares of common stock in open market transactions for an aggregate cost (including transaction costs) of \$7.5 million and zero, respectively.

DISTRIBUTIONS

During both the three months ended December 31, 2018 and 2017, we declared distributions of \$0.18 per share, for total distributions of \$12.2 million and \$12.8 million, respectively. We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.

RECENT DEVELOPMENTS

On February 5, 2019, our stockholders approved the adoption of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Consolidated Appropriations Act of 2018 (which includes the Small Business Credit Availability Act) as approved by our board of directors on November 13, 2018. As a result, the minimum asset coverage requirements applicable to us for senior securities has been reduced from 200% to 150%, subject to compliance with certain disclosure requirements. In connection with this reduction, our annual base management fee has also been reduced from 1.50% to 1.00% on gross assets that exceed 200% of the Company's total net assets as of the immediately preceding quarter-end.

On January 31, 2019, the Company announced the redemption of \$250.0 million outstanding aggregate principal amount of its 2019 Notes due October 1, 2019. The 2019 Notes will be prepaid at 100% of the principal amount, plus accrued and unpaid interest through the payment date of March 4, 2019, as well as a make-whole premium.
