The Notice of Annual Meeting of Stockholders and the proxy statement of the Board of Directors of the Company, which is accessible on the Internet or by request, provide an outline of the business to be conducted at our Annual Meeting of Stockholders. At the meeting, you will be asked to: (i) elect one director of the Company, (ii) ratify the selection of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending September 30, 2010 and (iii) approve a proposal to authorize flexibility for us, with approval of our Board of Directors, to sell shares of our Common Stock at a price below our then current net asset value per share in one or more offerings, subject to certain conditions as set forth in the proxy statement. I will also report on the progress of the Company during the past year and respond to stockholder's questions.

It is important that your shares be represented at the Annual Meeting. If you are unable to attend the meeting in person, I urge you to follow the instructions on the Notice of Internet Availability of Proxy Materials to vote your proxy on the Internet. We encourage you to vote via the Internet, as it saves us significant time and processing costs. However, on the Notice of Internet Availability of Proxy Materials you also will find instructions on how to request a hard copy of the proxy statement and proxy card free of charge, and you may vote your proxy by returning a proxy card to us after you request the hard copy materials. Notice is hereby given to the owners of shares of common stock (the "Stockholders") of PennantPark Investment Corporation (the "Company") that:

The 2010 Annual Meeting of Stockholders of the Company will be held at the offices of Dechert LLP, located at 1095 Avenue of the Americas, New York, New York, on February 2, 2010 at 9:30 a.m., Eastern Time, for the following purposes:

1. To elect one Class III director of the Company who will serve for a term of three years or until his successor is duly elected and qualified;
2. To ratify the selection of KPMG LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending September 30, 2010;
3. To consider and vote upon a proposal to authorize flexibility for us, with the approval of our Board of Directors, to sell shares of our Common Stock (during the next 12 months) at a price below our then current net asset value per share, subject to certain limitations described in this proxy statement;
4. To transact such other business as may properly come before the Meeting or any adjournments or postponements thereof.

You have the right to receive notice of, and to vote at, the Annual Meeting if you were a stockholder of record at the close of business on December 15, 2009. Under rules adopted by the U.S. Securities and Exchange Commission, we are now furnishing proxy materials to our shareholders on the Internet, rather than mailing printed copies of those materials to each shareholder. If you received a Notice of Internet Availability of Proxy Materials by mail, you will not receive a printed copy of the proxy materials unless you request them. Instead, the Notice of Internet Availability of Proxy Materials will instruct you as to how you may access and review the proxy materials, and vote your proxy, on the Internet.

Your vote is extremely important to us. If you are unable to attend the Annual Meeting of Stockholders, we encourage you to vote your proxy on the Internet by following the instructions provided on the Notice of Internet Availability of Proxy Materials. You may also request from us free of charge hard copies of the proxy statement and a proxy card by following the instructions on the Notice of Availability of Proxy Materials. In the event there are not sufficient votes for a quorum or to approve the proposals at the time of the Annual Meeting, the Annual Meeting may be adjourned in order to permit further solicitation of proxies by the Company.

PROXY STATEMENT

For

2010 Annual Meeting of Stockholders

To Be Held on February 2, 2010

This document will give you the information you need to vote on the matters listed on the accompanying Notice of Annual Meeting of Stockholders ("Notice of Annual Meeting"). Much of the information in this Proxy Statement is required under rules of the Securities and Exchange Commission ("SEC"); some of it is technical in nature. If there is anything you do not understand, please contact us at 212-905-1000.

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of PennantPark Investment Corporation (the "Company," "we," "us" or "our") for use at our 2010 Annual Meeting of Stockholders (the "Meeting") to be held on Tuesday, February 2, 2010 at 9:30 a.m., Eastern Time, at the offices of Dechert LLP, located at 1095 Avenue of the Americas, New York, New York and at any postponements or adjournments thereof. This Proxy Statement and the Company's Annual Report for the fiscal year ended September 30, 2009, are being provided to stockholders of the Company (the "Stockholders") via the Internet on or about December 21, 2009. In addition, a Notice of Annual Meeting and a Notice of Internet Availability of Proxy Materials are being sent to Stockholders of record as of December 15, 2009.

We encourage you to vote your shares, either by voting in person at the Meeting or by voting by proxy (i.e., authorizing someone to vote your shares). Shares represented by duly executed proxies will be voted in accordance with your instructions. If you execute a proxy without specifying your voting instructions, your shares will be voted in accordance with the Board's recommendation. If any other business is brought before the Meeting, your shares will be voted at the Board's discretion unless you specifically state otherwise on your proxy.

You may revoke a proxy at any time before it is exercised by notifying the Company's Secretary in writing, by submitting a properly executed, later-dated proxy, or by voting in person at the Meeting. Any Stockholder entitled to vote at the Meeting may attend the Meeting and vote in person whether or not he or she has previously voted his or her shares via proxy or wishes to change a previous vote.

You will be eligible to vote your shares electronically via the Internet, telephone or by mail.

Purpose of Meeting

At the Meeting, you will be asked to vote on the following proposals:

1. To elect one Class III director of the Company who will serve for a term of three years or until his successor is duly elected and qualified;
2. To ratify the selection of KPMG LLP to serve as the Company's independent registered public accounting firm for the fiscal year ending September 30, 2010; and
3. To consider and vote upon a proposal to authorize flexibility for us, with the approval of our Board of Directors, to sell shares of our Common Stock (during the next 12 months) at a price below our then current net asset value per share, subject to certain limitations described in this proxy statement;

4. To transact such other business as may properly come before the Meeting or any adjournments or postponements thereof.

Voting Securities

You may vote your shares at the Meeting only if you were a Stockholder of record at the close of business on December 15, 2009 (the "Record Date"). There were [25,808,772] shares of the Company's common stock (the "Common Stock") outstanding on the Record Date. Each share of the Common Stock is entitled to one vote.

Quorum Required

A quorum must be present at the Meeting for any business to be conducted. The presence at the Meeting, in person or by proxy, of the holders of a majority of the shares of Common Stock outstanding on the Record Date will constitute a quorum. Shares held by a broker or other nominee for which the nominee has not received voting instructions from the record holder and does not have discretionary authority to vote the shares on non-routine proposals (which are considered "broker non-votes" with respect to such proposals), will be treated as shares present for quorum purposes. If there are not enough votes for a quorum, the chairman of the Meeting will adjourn the Meeting to permit the further solicitation of proxies.

Votes Required

Election of Director

The election of a director requires the vote of a majority of the shares of stock outstanding. Stockholders may not cumulate their votes. If you vote "Withhold Authority" with respect to a nominee, your shares will not be voted with respect to the person indicated. Because directors are elected by a majority of the votes of the outstanding Common Stock of the Company, votes to withhold authority, or no votes, will have the effect of a vote against the nominee.

Ratification of Independent Registered Public Accounting Firm

The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy is required to ratify the appointment of KPMG LLP to serve as the Company's independent registered public accounting firm. Abstentions will not be included in determining the number of votes cast and, as a result, will have no effect on this proposal.

Authorization to offer and sell shares of Common Stock below Net Asset Value

Approval of Proposal 3 requires the affirmative vote of the Stockholders holding (1) a majority of the outstanding shares of our Common Stock entitled to vote at the Meeting and (2) a majority of the outstanding shares of our Common Stock entitled to vote at the meeting that are not held by affiliated persons of us. For purposes of this proposal, the Investment Company Act of 1940, as amended (the "1940 Act"), defines "a majority of outstanding voting securities of a company" as: (1) 67% or more of the voting securities present at the applicable meeting if the holders of more than 50% of the outstanding voting securities of such company are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of such company, whichever is less. Abstentions will have the effect of a vote against this proposal.

Broker Non-votes

Broker Non-votes are described a votes cast by a broker or other nominee on behalf of a beneficial holder who does not provide explicit voting instructions to such broker or nominee who does not attend the meeting. Proposals 1 and 3 are non-routine matters. As a result, if you hold shares in "street name" through a broker, bank or other nominee, your broker, bank or nominee will **not** be permitted to exercise voting discretion with respect to Proposals 1 and 3. Thus, if you do not give your broker or nominee specific instructions on how to vote for you or do not vote for yourself in accordance with the voting instructions in the Notice of Internet Availability of Proxy Materials or by requesting hard copy proxy materials from us and returning a proxy card or by other arrangement with your broker or nominee, your shares will have the effect of a vote against Proposals 1 and 3.

Proposal 2 is a routine matter. As a result, if you beneficially own your shares and you do not provide your broker or nominee with proxy instructions, either by voting in accordance with the instructions on the Notice of Internet Availability of Proxy Materials or by requesting hard copy proxy materials from us and returning a proxy card or by other arrangement with your broker or nominee, your broker or nominee will be able to vote your shares for you on this routine matter and any other routine matter that comes before the Meeting.

Adjournment and Additional Solicitation. If there appears not to be enough votes to approve the proposals at the Meeting, the Stockholders who are represented in person or by proxy may vote to adjourn the Meeting to permit the further solicitation of proxies. Mr. Marshall Brozost and Mr. Samuel L. Katz are the persons named as proxies and will vote proxies held by them for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought, to permit the further solicitation of proxies.

A Stockholder vote may be taken on any of the proposals in this Proxy Statement prior to any such adjournment if there are sufficient votes for approval of such proposal.

Information Regarding This Solicitation

The Company will bear the expense of the solicitation of proxies for the Meeting, including the cost of preparing and posting this Proxy Statement and the Annual Report to the Internet and the cost of mailing the Notice of Annual Meeting of Stockholders, the Notice of Internet Availability of Proxy Materials and any requested proxy materials to Stockholders. The Company intends to use the services of Broadridge Financial Solutions, Inc., a leading provider of investor communications solutions, to aid in the distribution and collection of proxy votes. The Company expects to pay market rates for such services. If brokers, trustees, or fiduciaries and other institutions holding shares in their own names or in the names of their nominee, which shares are beneficially owned by others, forward the proxy materials to, and obtain proxies from, such beneficial owners, we will reimburse such persons for their reasonable expenses in so doing.

In addition to the solicitation of proxies by the use of the Internet, proxies may be solicited in person and/or by telephone, mail or facsimile transmission by directors or officers of the Company, officers or employees of PennantPark Investment Advisers, LLC, the Company's investment adviser and/or by a retained solicitor. No additional compensation will be paid to directors, officers or regular employees for such services. If the Company retains a solicitor, the Company has estimated that it will pay approximately \$15,000 for such services. If the Company engages a solicitor, you could be contacted by telephone on behalf of the Company and urged to vote. The solicitor will not attempt to influence how you vote your shares, but only ask that you take the time to cast a vote. You may also be asked if you would like to vote over the telephone and to have your vote transmitted to our proxy tabulation firm.

Stockholders may provide their voting instructions through the Internet, by telephone or by mail by following the instructions on the Notice of Availability of Proxy Materials. These options require Stockholders to input the Control Number, which is provided with the Notice of Availability of Proxy Materials. If you vote using the Internet, after visiting www.proxyvote.com and inputting your Control Number, you will be prompted to provide your voting instructions. Stockholders will have an opportunity to review their voting instructions and make any necessary changes before submitting their voting instructions and terminating their Internet link. Stockholders who vote via the Internet, in addition to confirming their voting instructions prior to submission, will also receive an e-mail confirming their instructions upon request.

If a Stockholder wishes to participate in the Meeting, but does not wish to give a proxy by Internet, the Stockholder may attend the Meeting in person or request and submit a proxy card by following the instructions on the Notice of Availability of Internet Proxy Materials.

Any proxy authorized pursuant to this solicitation may be revoked by notice from the person giving the proxy at any time before it is exercised. A revocation may be effected by resubmitting voting instructions via

the Internet voting site, by telephone, by obtaining and properly completing another proxy card that is dated later than the original proxy and returning it, by mail, in time to be received before the meeting, by attending the Meeting or by a notice, provided in writing and signed by the Stockholder, delivered to the Company's Secretary on any business day before the date of the Meeting.

Corporate Governance

We believe that maintaining the highest standards of corporate governance is a crucial part of our business, and the Company is committed to having in place the necessary controls and procedures designed to ensure compliance with applicable laws, rules and regulations, as well as our own ethical standards of conduct.

Director Independence

NASDAQ rules require listed companies to have a board of directors with at least a majority of independent directors. Under NASDAQ rules, in order for a director to be deemed independent, our Board must determine that the individual does not have a relationship that would interfere with the director's exercise of independent judgment in carrying out his or her responsibilities. Each member of our Board is required to complete an independence questionnaire when changes in circumstances occur but no less frequently than annually designed to provide information to assist the Board in determining whether the director is independent under NASDAQ rules, applicable law, and our corporate governance guidelines. Our Board has determined that each of our directors, other than Mr. Penn, is independent under the listing standards of the NASDAQ Global Select Market. The Board limits membership on the Audit Committee and the Nominating and Corporate Governance Committee to independent directors.

Committees of the Board of Directors

Our Board of Directors has established an Audit Committee and a Nominating and Corporate Governance Committee. For the fiscal year ended September 30, 2009, the Board of Directors of the Company held six board meetings, four Audit Committee meetings and two Nominating and Corporate Governance Committee meetings. All directors attended at least 75% of the aggregate number of meetings of the Board and of the respective Committees on which they served. The Company requires each director to make a diligent effort to attend all Board and Committee meetings, and encourages directors to attend the Annual Meeting of Stockholders. Last year three members of the Board of Directors attended the meeting.

Audit Committee

The members of the Audit Committee are Messrs. Bernstein, Brozost, Flug and Katz, each of whom is independent for purposes of the 1940 Act and The NASDAQ corporate governance rules. Mr. Flug serves as chairman of the Audit Committee. The Audit Committee operates pursuant to an Audit Committee Charter approved by the Board of Directors. The charter sets forth the responsibilities of the Audit Committee, which include selecting or retaining each year an independent registered public accounting firm (the "auditors") to audit the accounts and records of the Company; reviewing and discussing with management and the auditors the annual audited financial statements of the Company, including disclosures made in management's discussion and analysis, and recommending to the Board of Directors whether the audited financial statements should be included in the Company's annual report on Form 10-K; reviewing and discussing with management and the auditors the Company's quarterly financial statements prior to the filings of its quarterly reports on Form 10-Q; pre-approving the auditors' engagement to render audit and/or permissible non-audit services; and evaluating the qualifications, performance and independence of the auditors. The Audit Committee is also responsible for aiding our Board of Directors in fair value pricing of debt and equity securities that are not publicly traded or for which current market values are not readily available. The Board of Directors and Audit Committee use the services of nationally recognized independent valuation firms to help them determine the fair value of these securities. The Company's Board of Directors has determined that Mr. Flug is our "Audit Committee financial expert" as that term is defined under Item 407 of Regulation S-K under the Securities Exchange Act of 1934, as amended (the Exchange Act"). The Audit Committee Charter is available on the Company's website (<http://www.pennantpark.com>).

**PROPOSAL 2: RATIFICATION OF
SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

KPMG LLP (“KPMG”) has been selected as the independent registered public accounting firm to audit the financial statements of the Company at and during the Company’s fiscal year ending September 30, 2010. KPMG was selected by the Audit Committee of the Company and that selection was ratified by a majority of the Company’s Board, including all of the independent directors, by a vote cast in person. The Company does not know of any direct or indirect financial interest of KPMG in the Company. Representative(s) of KPMG will attend the Annual Meeting and will have the opportunity to make a statement if they desire to do so and will be available to answer questions.

Audit Fees: Audit fees consist of fees billed for professional services rendered for the audit of our year-end financial statements and services that are normally provided by KPMG in connection with statutory and regulatory filings. Audit fees billed during the fiscal years ended September 30, 2009 and 2008 to the Company were \$180,050 and \$357,269, respectively.

Audit-Related Fees: Audit-related services consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and are not reported under “Audit Fees.” These services include attest services that are not required by statute or regulation and consultations concerning financial accounting and reporting standards. There were no audit related fees billed during the fiscal years ended September 30, 2009 and 2008.

Tax Fees: Tax fees consist of fees billed for professional services for tax compliance. These services include assistance regarding federal, state, and local tax compliance. Tax fees billed to the Company during the fiscal years ended September 30, 2009 and 2008 were \$19,250 and \$111,000, respectively.

All Other Fees: Other fees would include fees billed for products and services other than the services reported above. Other fees billed during fiscal years ended September 30, 2009 and 2008 were \$86,154 and \$41,338, respectively.

The Audit Committee has established a pre-approval policy that describes the permitted audit, audit-related, tax and other services to be provided by KPMG, the Company’s independent auditor. The policy requires that the Audit Committee pre-approve the audit and permissible non-audit services performed by the independent auditor in order to assure that the provision of such service does not impair the auditor’s independence.

Any requests for audit, audit-related, tax and other services that have not received general pre-approval must be submitted to the Audit Committee for specific pre-approval, and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings of the Audit Committee. However, the Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee does not delegate its responsibilities to pre-approve services performed by the independent auditor to management.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF KPMG LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM TO THE COMPANY FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2010.

**PROPOSAL 3: AUTHORIZATION TO OFFER AND SELL SHARES OF
COMMON STOCK BELOW NET ASSET VALUE**

Stockholder Authorization

The 1940 Act generally prohibits us, as a Business Development Company (“BDC”), from offering and selling shares of our Common Stock at a price below the then current net asset value per share, or NAV, unless the policy and practice of doing so is approved by the Stockholders within one year immediately prior to any such sales. Shares of our Common Stock have traded at a price both above and below their NAV since they have begun trading on the NASDAQ Global Select Market.

We are seeking Stockholder approval now to sell our shares below NAV in order to provide flexibility for future sales, which typically are undertaken quickly in response to market conditions. The final terms of any such sale will be determined by the Board at the time of sale. Also, because we have no immediate plans to sell any shares of our Common Stock below NAV, it is impracticable to describe the transaction or transactions in which such shares would be sold. Instead, any transaction where we sell such shares of our Common Stock, including the nature and amount of consideration that would be received by us at the time of sale and the use of any such consideration, will be reviewed and approved by the Board at the time of sale. If this proposal is approved, we will not solicit further authorization from the Stockholders prior to any such sale, and the authorization would be effective for shares sold during a period beginning on the date of Stockholder approval and expiring one year from such approval. In connection with the August 25, 2009 Special Meeting of Stockholders, we sought, and received, Stockholder approval of a substantially similar proposal. Such Stockholder approval will expire on August 25, 2010. With this proposal, we are seeking to bring the timing to conform to our annual meeting cycle so that special meetings are not required going forward.

In a common stock offering, investors are offered an ownership interest in a corporation. Stockholders typically are entitled to vote on the selection of corporate directors and other important matters as well as to receive distributions on their holdings to the extent such distributions are declared.

Generally, common stock offerings for BDCs are priced based on the market price of the currently outstanding shares of common stock, less a small discount of approximately 5%. Since shares of our Common Stock currently trade at a market price below NAV, Stockholder approval would permit us to offer and sell shares of our Common Stock in accordance with pricing standards that market conditions generally require. This proxy statement is not an offer of securities. Securities may not be offered or sold in the United States absent registration with the SEC or an applicable exemption from the registration requirements.

1940 Act Conditions for Sales below NAV

Our ability to issue shares of our Common Stock at a price below NAV is governed by the 1940 Act. Specifically, Section 63(2) of the 1940 Act provides that we may offer and sell shares of our Common Stock at prices below the then current NAV with Stockholder approval, provided that:

- any such sales are approved by (1) a majority of our Independent Directors and (2) a majority of our directors who have no financial interest in the proposal as being in the best interests of us and our Stockholders; and
- such a required majority of directors, in consultation with the underwriter of the offering, if it is underwritten, have determined in good faith, and as of a time immediately prior to the first solicitation by or on behalf of us of any firm commitment to purchase such securities or immediately prior to the issuance of such securities, that the price at which such securities are to be sold is not less than a price which closely approximates the market value for those securities, less any distributing commission or discount.

Without the approval of Stockholders to offer and sell shares of our Common Stock at prices below NAV, we would be prohibited from selling such shares to raise capital when the market price for our Common Stock is below NAV. Our shares have for the most part recently traded at a discount to NAV.

Board Approval

On November 18, 2009, the Board unanimously approved, and is recommending that the Stockholders vote in favor of, Proposal 3 to offer and sell shares of our Common Stock at prices that may be less than NAV. The Board concluded that the proposal is in the best interests of us and our Stockholders. In doing so, the Board, including the Independent Directors, considered and evaluated factors including the following, as discussed more fully below:

- possible long-term benefits to the Stockholders; and
- possible dilution to our NAV

Prior to approving Proposal 3, the Board met to consider and evaluate material that our management provided on the merits of our possibly raising additional capital and the merits of publicly offering shares of our Common Stock at a price below NAV. The Board considered the objectives of a possible offering, the mechanics of an offering, establishing size parameters for an offering, the possible effects of dilution, Common Stock trading volume, and other matters. The Independent Directors also consulted with their independent counsel to consider and evaluate the issues presented and voted separately on the issues presented.

The Board evaluated a full range of offering sizes. However, the Board has not yet drawn any definite conclusions regarding the size of a contemplated capital raise at this time. The Board expects that any increase in capital would be from a public offering of our Common Stock, or the possibility of one or more private placements. Additionally, our Common Stock could be issued as part of a purchase of assets, portfolios or other companies.

In determining whether or not to offer and sell Common Stock, the Board has a duty to act in our best interests and that of our Stockholders and must comply with the other requirements of Section 63(2) of the 1940 Act. If Stockholders do not approve Proposal 3, the Board will consider and evaluate our options to determine what alternatives are in our best interests and that of our Stockholders.

Possible Benefits to Stockholders

The Board believes that having the flexibility for the Company to sell its Common Stock below NAV in certain instances is in our best interests and the best interests of Stockholders. If the Company were unable to access the capital markets as attractive investment opportunities arise, the Company's ability to grow over time and continue to pay dividends to Stockholders could be adversely affected. In reaching that conclusion, the Board considered the following possible benefits to our Stockholders.

Current Market Conditions Have Created Attractive Opportunities

Current market dislocation has created, and we believe will continue to create, favorable opportunities to invest, including opportunities that, all else being equal, may increase NAV over the longer-term, even if financed with the issuance of Common Stock below NAV. Stockholder approval of the proposal to sell shares below NAV, subject to the conditions detailed below, is expected to provide the Company with the flexibility to invest in such opportunities. We believe that current market conditions provide attractive opportunities to use capital.

In mid-2007, the debt and equity capital markets in the United States began to experience disturbance caused by significant write-offs in the financial services sector relating to subprime mortgages, the failure of certain major financial institutions and the re-pricing of credit risk, among other things. These events, along with

a general deterioration of the housing market, led to worsening general economic conditions, which have adversely impacted the broader financial and credit markets and have reduced the availability of debt and equity capital for the market as a whole and financial firms in particular. These factors accelerated during second half of 2008 and continued into early 2009, as many investors sold assets to repay debt, meet equity redemption requirements or satisfy other obligations. This created forced selling that negatively impacted valuations of debt securities in most markets.

However, the change in market conditions also had beneficial effects for capital providers, including reduced competition, more favorable pricing of credit risk, more conservative capital structures, and more creditor-friendly contractual terms. Accordingly, we believe that we will benefit from access to capital in this constrained credit market and that the current environment should provide attractive investment opportunities. Our ability to take advantage of these opportunities will depend upon our access to capital.

Greater Investment Opportunities Due to Larger Capital Resources

The Board believes that additional capital raised through an offering of shares of our Common Stock may help us generate additional deal flow. Based on discussions with our management, the Board believes that greater deal flow, which may be achieved with more capital, would enable us to be a more significant participant in the private debt and equity markets and to compete more effectively for attractive investment opportunities. With more capital to invest in portfolio opportunities, we intend to be a more meaningful capital provider to companies and to compete for high quality investment opportunities with other funds having greater resources than we do. Management has represented to the Board that such investment opportunities may be funded with proceeds of an offering of shares of our Common Stock. However, management has not identified specific companies in which to invest the proceeds of an offering given that specific investment opportunities will change depending on the timing of an offering, if any.

Higher Market Capitalization and Liquidity May Make Our Common Stock More Attractive to Investors

If we issue additional shares, our market capitalization and the amount of our publicly tradable Common Stock will increase, which may afford all holders of our Common Stock greater liquidity. A larger market capitalization may make our stock more attractive to a larger number of investors who have limitations of the size of companies in which they invest. Furthermore, a larger number of shares outstanding may increase trading volume, which could decrease the volatility in the secondary market in the price of our Common Stock.

Maintenance or Possible Increase of Dividends

A larger and more diversified portfolio could provide us with more consistent cash flow, which may support the maintenance and growth of our dividend. We generally distribute dividends to our Stockholders and last declared a quarterly dividend of \$0.24 per share of our Common Stock, paid on October 1, 2009. Although management will continue to seek to generate income sufficient to pay our dividends in the future, the proceeds, and the investments thereof, could enable us to maintain and possibly grow our dividends, which may include a return of capital, in the future.

Reduced Expenses Per Share

An offering that increases our total assets may reduce our expenses per share due to the spreading of fixed expenses over a larger asset base. We must bear certain fixed expenses, such as certain administrative, governance and compliance costs that do not generally vary based on our size. On a per share basis, these fixed expenses will be reduced when supported by a larger asset base.

As a BDC and a regulated investment company (a "RIC") for tax purposes we must abide by certain requirements. RICs generally must distribute substantially all of their earnings from dividends, interest and short-term gains to stockholders as dividends in order to maintain pass-through tax treatment. This requirement prevents us from using retained earnings to finance new investments. Further, in order to borrow money or issue preferred stock, BDCs must maintain a debt-to-equity ratio of not more than 1:1, which requires us to finance our investments with at least as much common equity as our combined outstanding debt and preferred stock. While we believe that we can continue to meet our obligations to pay dividends and maintain the requisite debt-to-equity ratio without raising capital, raising such capital could assist us in taking advantage of new investment opportunities and building our investment portfolio, which could help us meet such regulatory obligations.

Exceeding the required 1:1 debt-to-equity ratio would have severe negative consequences for a BDC, including an inability to pay dividends, possible breaches of debt covenants and failure to qualify for tax treatment as a RIC. Although we do not currently expect that we will exceed the required 1:1 debt-to-equity ratio, the markets we operate in and the general economy remain volatile and uncertain. Even though the underlying performance of a particular portfolio company may not indicate impairment or an inability to repay indebtedness in full, the volatility in the debt capital markets may continue to impact the valuations of debt investments negatively and result in further unrealized write-downs of debt investments. Any such asset write-downs, as well as unrealized write-downs based on the underlying performance of our portfolio companies, if any, will negatively impact our Stockholders' equity and the resulting debt-to-equity ratio required for BDCs. Continued volatility in the capital markets and the resulting negative pressure on debt investment valuations could negatively impact our asset valuations, Stockholders' equity and our debt-to-equity ratio. Issuing new equity will improve our debt-to-equity ratio.

In addition to meeting legal requirements applicable to BDCs, having a more favorable debt-to-equity ratio will also generally strengthen our balance sheet and give us more flexibility in our operations.

(2) Calculated as the respective high or low closing sales price divided by the quarter end NAV.

* From April 24, 2007 (initial public offering) to June 30, 2007.

Although the Company has at times experienced a share price above NAV, there can be no assurance that it will do so under current market conditions or in the future. The unprecedented nature of the current credit market dislocation and uncertainty surrounding the U.S. economy have led to significant stock market volatility, particularly with respect to the stock of financial services companies.

Conditions to Our Sale of Common Stock below NAV

If Stockholders approve this proposal, we will sell shares of our Common Stock at a price below NAV, exclusive of sales compensation, only if the following conditions are met:

- a majority of our independent directors who have no financial interest in the sale have approved the sale; and
- a majority of such directors, who are not interested persons of us, in consultation with the underwriter or underwriters of the offering if it is to be underwritten, have determined in good faith, and as of a time immediately prior to the first solicitation by or on behalf of us of firm commitments to purchase such securities, or immediately prior to the sale of such securities, that the price at which such securities are to be sold is not less than a price which closely approximates the market value of those securities, less any underwriting commission or discount.

Dilution

Before voting on this proposal or giving proxies with regard to this matter, Stockholders should consider the potentially dilutive effect on the NAV of the issuance of shares of our Common Stock at a price less than NAV. Any sale of Common Stock at a price below NAV would result in an immediate dilution to existing Stockholders on a per share basis. This dilution would include reduction in the NAV as a result of the issuance of shares at a price below the NAV and a proportionately greater decrease in a Stockholder's per share interest in the earnings and assets of the Company and per share voting interest in the Company. The Board has considered the potential dilutive effect of the issuance of shares at a price below the NAV and will consider again such dilutive effect when considering whether to authorize any specific issuance of shares of Common Stock below NAV.

The 1940 Act establishes a connection between common share sale price and NAV because, when stock is sold at a sale price below NAV, the resulting increase in the number of outstanding shares is not accompanied by a proportionate increase in the net assets of the issuer. Stockholders should also consider that they will have no subscription, preferential or preemptive rights to additional shares of Common Stock proposed to be authorized for issuance, and thus any future issuance of Common Stock at a price below NAV would dilute a Stockholder's holdings of Common Stock as a percentage of shares outstanding to the extent the Stockholder does not purchase sufficient shares in the offering or otherwise to maintain the Stockholder's percentage interest. Further, if the Stockholder does not purchase, or is unable to purchase, any shares to maintain the Stockholder's percentage interest, regardless of whether such offering is at a price above or below the then current NAV, the Stockholder's voting power will be diluted.

The precise extent of any such dilution cannot be estimated before the terms of a Common Stock offering are set. As a general proposition, however, the amount of potential dilution will increase as the size of the offering increases. Another factor that will influence the amount of dilution in an offering is the amount of net proceeds that we receive from such offering. The Board would expect that the net proceeds to us will be equal to the price that investors pay per share, less the amount of any underwriting discounts and commissions, typically 95% of the market price.

As previously discussed, the Board evaluated a full range of offering sizes. The following example indicates how an offering would immediately affect the NAV of our Common Stock based on the assumptions set forth below. It does not include any effects or influence on market share price due to changes in investment performance over time, dividend policy, increased trading volume or other qualitative aspects of the shares our Common Stock.

Examples of Dilutive Effect of the Issuance of Shares Below NAV

The following table illustrates the level of NAV dilution that would be experienced by a nonparticipating stockholder in three different hypothetical common stock offerings of different sizes and levels of discount from NAV per share, although it is not possible to predict the level of market price decline that may occur. Actual sales prices and discounts may differ from the presentation below.

The examples assume that Company XYZ has 1,000,000 shares of common stock outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. The current NAV and NAV per share are thus \$10,000,000 and \$10.00, respectively. The table below illustrates the dilutive effect on nonparticipating Stockholder A of (1) an offering of 50,000 shares (5% of the outstanding shares) at \$9.50 per share after offering expenses and commission (a 5% discount from NAV); (2) an offering of 100,000 shares (10% of the outstanding shares) at \$9.00 per share after offering expenses and commissions (a 10% discount from NAV); and (3) an offering of 200,000 shares (20% of the outstanding shares) at \$8.00 per share after offering expenses and commissions (a 20% discount from NAV).

The discount to NAV is a result of market perception that moves the share price and thus NAV is only one determinant of market value. We expect the market price of shares of Common Stock will incorporate a discount or premium factor based on the market assessment of future earnings and the likelihood of those earnings supporting growth in our dividend yield.

Notwithstanding the dilutive effect of any equity financing on our NAV, the Board has considered our need to obtain additional capital for investment and other factors discussed in this proxy statement. With more capital to invest, the Board believes that we would be able to make investments with more significant earnings and growth potential. The Board further believes that over time the value of the incremental assets available for investment, taken together with the other factors previously discussed, may be reflected positively in the market price of our shares and that such increases may exceed the initial dilutive effects that we are likely to experience in our NAV due to offerings of shares of our Common Stock in accordance with this proposal. In our view, the secondary market price of our Common Stock is an important gauge of the true economic impact on Stockholders of any equity offering.

Other Considerations

In reaching its recommendation to the Stockholders to approve Proposal 3, the Board considered a possible source of conflict of interest due to the fact that the proceeds from the issuance of additional shares of our Common Stock will increase the management fees that we pay to the Investment Adviser as such fees are partially based on the amount of our gross assets. The Board and the Independent Directors concluded that the benefits to the Stockholders from increasing our capital base outweighed any detriment from increased management fees, especially considering that the management fees would increase regardless of whether we offer shares of Common Stock below NAV or above NAV. The Board also considered the effect of the following factors:

- the costs and benefits of a Common Stock offering below NAV compared to other possible means for raising capital or concluding not to raise capital;
- the size of a Common Stock offering in relation to the number of shares outstanding;
- the general condition of the securities markets; and
- any impact on operating expenses associated with an increase in capital.

Potential Investors

Presently, we have not solicited any potential buyers of the shares that we may elect to issue in any future offering to comply with the federal securities laws. No shares are earmarked for management or other affiliated persons of us. However, members of our management and other affiliated persons may participate in a Common Stock offering on the same terms as others.

Required Stockholder Vote

If the Stockholders approve this proposal, during a one-year period commencing on the date of such approval, we will be permitted, but not required or otherwise obligated, to offer and sell newly issued shares of our Common Stock at a price below NAV at the time sold. The Board believes that the proposal is important because of the flexibility it would provide in raising additional capital even if our Common Stock is trading at prices below NAV.

Approval of this proposal requires the affirmative vote of (1) a majority of the outstanding shares of our Common Stock entitled to vote at the Meeting and (2) a majority of the outstanding shares of our Common Stock entitled to vote at the Meeting that are not held by affiliated persons of us. For purposes of this proposal, the 1940 Act, defines “a majority of the outstanding voting securities of a company” as: (1) 67% or more of the

voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of such company are present or represented by proxy or (2) more than 50% of the outstanding voting securities of such company, whichever is the less. Abstentions and broker non-votes will have the effect of a vote against this proposal.

The Board, including its Independent Directors, unanimously recommends that each Stockholder vote FOR this proposal to authorize us to offer and sell shares of our Common Stock at a price below current NAV.

OTHER BUSINESS

The Board knows of no other matter that is likely to come before the Meeting. However, if any other matter properly comes before the Meeting, the individuals named as proxy holders will vote in accordance with their discretion on such matters.

If there appears not to be enough votes for a quorum or to approve the proposals at the Meeting the Stockholders who are represented in person or by proxy may vote to adjourn the Meeting to permit the further solicitation of proxies. The person(s) named as proxies will vote proxies held by them for such adjournment.
