## RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and six months ended March 31, 2011 and 2010.

### Investment Income

Investment income for the three and six months ended March 31, 2011 was \$22.7 million and \$42.7 million, respectively, and was primarily attributable to \$8.0 million and \$15.1 million from senior secured loans, \$2.8 million and \$6.0 million from second lien secured debt investments, and \$8.6 million and \$16.3 million from subordinated debt investments, respectively. This compares to investment income for the three and six months ended March 31, 2010, which was \$13.5 million and \$27.1 million, respectively, and was primarily attributable to \$3.2 million and \$6.7 million from senior secured loans, \$3.3 million and \$6.5 million from second lien secured debt investments and \$5.9 million and \$11.3 million from subordinated debt investments, respectively. The increase in investment income compared with the same period in the prior year is due to the growth of our portfolio and rotation out of our lower yielding investments.

### Expenses

Expenses for the three and six months ended March 31, 2011, totaled \$9.6 million and \$18.4 million, respectively. Base management fee for the same respective periods totaled \$3.6 million and \$7.1 million, performance-based incentive fees totaled \$3.3 million and \$6.1 million, credit facility and SBA debentures expenses totaled \$1.1 million and \$2.2 million, general and administrative expenses totaled \$1.5 million and \$2.8 million, respectively, and excise tax for the six months ended March 31, 2011 totaled \$0.2 million. This compares to expenses for the three and six months ended March 31, 2010, which totaled \$6.5 million and \$12.8 million, respectively. Base management fee for the same respective periods totaled \$2.8 million and \$5.3 million, performance-based incentive fees totaled \$1.8 million and \$3.6 million, credit facility expenses totaled \$0.8 million and \$1.6 million, general and administrative expenses totaled \$1.1 million and \$2.2 million, respectively, and excise tax for the six months ended March 31, 2010 totaled \$0.1 million. The increase in expenses is due to the growth of both the portfolio and net investment income.

### Net Investment Income

Net investment income totaled \$13.2 million and \$24.3 million, or \$0.32 and \$0.63 per share, for the three and six months ended March 31, 2011, respectively. For the same respective periods in the prior year, net investment income totaled \$7.1 million and \$14.3 million, or \$0.26 and \$0.54 per share.

### Net Realized Gains or Losses

Sales and repayments of long-term investments for the three and six months ended March 31, 2011 totaled \$51.6 million and \$137.1 million and realized gains totaled \$0.3 million and \$2.6 million, respectively, due to sales of lower yielding investments and refinancing of our debt investments. Sales and repayments of long-term investments for the three and six months ended March 31, 2010 totaled \$6.7 million and \$23.5 million and realized losses totaled \$0.1 million and \$16.7 million, respectively, due to sales and repayments of our debt investments.

### Net Change in Unrealized Appreciation or Depreciation on Investments and Credit Facility

For the three and six months ended March 31, 2011, our investments had a net change in unrealized appreciation of \$4.8 million and \$23.5 million, respectively. For the three and six months ended March 31, 2010, our investments had a net change in unrealized appreciation of \$9.9 million and \$33.8 million, respectively. The decrease in the net change in unrealized appreciation compared to the prior year is the result of changes in the leveraged credit markets over the comparable periods. On March 31, 2011 and September 30, 2010, net unrealized appreciation on investments totaled \$31.5 million and \$8.0 million, respectively.

For the three and six months ended March 31, 2011, our long-term credit facility had a net change in unrealized appreciation of \$4.7 million and \$11.3 million, respectively. For the three and six months ended March 31, 2010, our long-term credit facility had a net change in unrealized appreciation of \$19.9 million and \$25.7 million, respectively. The net change in unrealized appreciation over the prior year is the result of the credit facility approaching maturity and the reduced borrowings outstanding. On March 31, 2011 and September 30, 2010, net unrealized depreciation on our long-term credit facility totaled \$2.7 million and \$14.0 million, respectively.

### Net Increase in Net Assets Resulting from Operations

Net increase in net assets resulting from operations totaled \$13.6 million and \$39.1 million, respectively, or \$0.33 per share and \$1.01 per share, respectively, for the three and six months ended March 31, 2011. This compares to a net (decrease) increase in net assets resulting from operations which totaled \$(3.0) million and \$5.6 million, respectively, or \$(0.11) per share or \$0.21 per share, for the three and six months ended March 31, 2010. This increase in net assets from operations is due to the continued growth in net investment income which is a result of growing our portfolio offset by the appreciation in the value of our long-term credit facility as it approaches maturity.

## **LIQUIDITY AND CAPITAL RESOURCES**

Our liquidity and capital resources are derived from our credit facility, Small Business Administration ("SBA") debentures and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and other operating expenses we incur. We used, and expect to continue to use, these capital resources as well as proceeds from the rotation of our portfolio, and from public and private offerings of securities to finance our investment objectives.

As of March 31, 2011, we had \$152.8 million in outstanding borrowings on our credit facility, with a fair market value of \$150.2 million and a weighted average interest rate at that time of 1.31%, exclusive of the fee on the undrawn commitment of 0.20%. Our senior secured revolving credit facility, which matures in June 2012, had \$162.2 million of remaining unused borrowing capacity as of March 31, 2011.

As of March 31, 2011, we had funded SBIC LP with \$50.0 million of equity capital, had SBA debentures outstanding of \$59.5 million with a weighted average interest rate of 3.65%, exclusive of 3.43% of upfront fees. The SBA debentures had \$40.5 million of remaining unused borrowing capacity subject to customary regulatory requirements as of March 31, 2011. Of the \$59.5 million of SBA debentures outstanding, \$45.0 million is fixed for 10-years with a rate of 4.45%, inclusive of the SBA annual fee, and \$14.5 million is temporary financing currently bearing a weighted average rate of 1.18% that will reset to a market-driven rate in September 2011 and will remain fixed thereafter for 10 years.

As of March 31, 2011, we had approximately \$57.6 million of assets bearing a coupon of 9% or lower. We will seek to rotate out of these assets into new, higher yielding investments over time.

On February 11, 2011, we sold 9.2 million shares of our common stock at a price of \$12.40 per share resulting in net proceeds of \$108.3 million. This compares to selling 5.75 million shares at a price of \$10.00 per share resulting in net proceeds of \$54.3 million for the same period in the prior year.

During the six months ended March 31, 2011, we generated operating cash flows primarily from interest earned on debt investments and sales and repayments of investments. Our primary use of funds from operations during the same period consisted of investments in portfolio companies, payments of fees and other operating expenses we incurred. Our operating activities used cash of \$54.5 million for the six months ended March 31, 2011, and our financing activities provided cash of \$54.2 million for the same period, primarily from net repayments under our credit facility, SBA debentures issued, and our common stock offering.

During the six months ended March 31, 2010, we generated operating cash flows primarily from interest earned on debt investments, and our primary use of funds from operations during the same period consisted of investments in portfolio companies, payments of fees and other operating expenses we incurred. Our operating activities used cash of \$78.8 million for the six months ended March 31, 2010, and our financing activities provided cash of \$46.5 million for the same period, primarily from our common stock offering.

## **DISTRIBUTIONS**

During the three and six months ended March 31, 2011, we declared distributions of \$0.27 and \$0.53 per share, respectively, for total distributions of \$12.3 million and \$21.7 million, respectively. For the same periods in the prior year, we declared distributions of \$0.26 and \$0.51 per share, respectively, for total distributions of \$8.2 million and \$14.7 million, respectively. Tax characteristics of all distributions will be reported to stockholders on Form 1099-DIV after the end of the calendar year.
