RESULTS OF OPERATIONS

Set forth below are the results of operations for the three months ended December 31, 2020 and 2019.

Investment Income

Investment income for the three months ended December 31, 2020 was \$18.7 million and was attributable to \$11.2 million from first lien secured debt, \$4.8 million from second lien secured debt, \$1.7 million from subordinated debt and \$1.0 million from preferred and common equity. This compares to investment income for the three months ended December 31, 2019 of \$26.0 million and was attributable to \$16.0 million from first lien secured debt, \$7.7 million from second lien secured debt and \$2.3 million from subordinated debt. The decrease in investment income compared to the same period in the prior year was primarily due to decreases in the size of our debt portfolio and the London Inter-bank Offered Rate, or LIBOR.

Expenses

Expenses for the three months ended December 31, 2020 totaled \$10.4 million. Base management fee for the same period totaled \$4.1 million, debt related interest and expenses totaled \$5.0 million, general and administrative expenses totaled \$1.1 million and provision for taxes totaled \$0.2 million. This compares to net expenses for the three months ended December 31, 2019, which totaled \$15.8 million. Base management fee for the same period totaled \$4.7 million, incentive fee totaled \$0.7 million, debt related interest and expenses totaled \$8.9 million, general and administrative expenses totaled \$1.2 million and provision for taxes totaled \$0.3 million. The decrease in expenses compared to the three-month period ended in the prior year was primarily due to a decrease in LIBOR and lower leverage.

Net Investment Income

Net investment income totaled \$8.3 million, or \$0.12 per share, and \$10.2 million, or \$0.15 per share, for the three months ended December 31, 2020 and 2019, respectively. The decrease in net investment income compared to the three-month period ended in the prior year was primarily due to lower investment income, partially offset by lower expenses.

Net Realized Gains or Losses

Sales and repayments of investments for the three months ended December 31, 2020 totaled \$102.6 million and net realized losses totaled \$17.6 million. Sales and repayments of investments for the three months ended December 31, 2019 totaled \$31.2 million and net realized losses totaled \$12.0 million. The change in realized losses was primarily due to changes in the market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments and the Credit Facilities

For the three months ended December 31, 2020 and 2019, we reported net change in unrealized appreciation on investments of \$93.5 million and \$23.6 million, respectively. As of December 31, 2020 and September 30, 2020, our net unrealized appreciation (depreciation) on investments totaled \$9.7 million and (\$83.8) million, respectively. The net change in unrealized appreciation/depreciation on our investments compared to the same period in the prior year was primarily due to unrealized gains in our equity co-investment program, including ITC Rumba, LLC (Cano Health, LLC), as well as the financial performance of certain portfolio companies primarily driven by the market disruption caused by the COVID-19 pandemic and the uncertainty surrounding its continued adverse economic impact. For more information on how the COVID-19 pandemic has affected our business and results of operations, see our Quarterly Report on Form 10-Q for the quarter ended December 31, 2020, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – COVID-19 Developments".

For the three months ended December 31, 2020, the Credit Facility had a net change in unrealized appreciation of \$13.1 million. For the three months ended December 31, 2019, our Credit Facilities had a net change in unrealized depreciation of \$2.6 million. As of December 31, 2020 and September 30, 2020, the net unrealized depreciation on the Credit Facility totaled \$6.4 million and \$19.6 million, respectively. The net change in net unrealized depreciation compared to the same period in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled \$71.1 million, or \$1.06 per share, and \$19.2 million, or \$0.29 per share, for the three months ended December 31, 2020 and 2019, respectively. The increase in net assets from operations for the three months ended December 31, 2020 compared to the same period in the prior year was primarily due to unrealized gains in our equity co-investment program, including ITC Rumba, LLC (Cano Health, LLC), as well as the financial performance of certain portfolio companies primarily driven by the market disruption caused by the COVID-19 pandemic and the uncertainty surrounding its continued adverse economic impact. For more information on how the COVID-19 pandemic has affected our business and results of operations, see our Quarterly Report on Form 10-Q for the quarter ended December 31, 2020, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – COVID-19 Developments".

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives. For more information on how the COVID-19 pandemic may impact our ability to comply with the covenants of the Credit Facility, see our Quarterly Report on Form 10-Q for the quarter ended December 31, 2020, including "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations – COVID-19 Developments".

The annualized weighted average cost of debt for the three months ended December 31, 2020 and 2019, inclusive of the fee on the undrawn commitment under the Credit Facilities and amortized upfront fees on SBA debentures, was 3.4% and 5.0%, respectively. As of December 31, 2020 and September 30, 2020, we had \$119.5 million and \$86.7 million of unused borrowing capacity under the Credit Facility, respectively, subject to leverage and borrowing base restrictions.

As of December 31, 2020 and September 30, 2020, we had \$355.5 million and \$388.3 million, respectively, in outstanding borrowings under the Credit Facility. The Credit Facility had a weighted average interest rate of 2.4% and 2.5%, respectively, exclusive of the fee on undrawn commitments, as of December 31, 2020 and September 30, 2020.

As of December 31, 2020 and September 30, 2020, we had cash and cash equivalents of \$20.2 million and \$25.8 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities provided cash of \$35.0 million for the three months ended December 31, 2020, and our financing activities used cash of \$40.8 million for the same period. Our operating activities provided cash primarily for our investment activities and our financing activities used cash primarily to pay down the Credit Facility.

Our operating activities used cash of \$71.3 million for the three months ended December 31, 2019 and our financing activities provided cash of \$43.8 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from net borrowings under our Credit Facilities.

DISTRIBUTIONS

During the three months ended December 31, 2020, we declared distributions of \$0.12 per share, for total distributions of \$8.0 million. For the same period in the prior year, we declared distributions of \$0.18 per share, respectively, for total distributions of \$12.1 million. We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.
