- (1) The provisions of the Investment Company Act of 1940, as amended, or the 1940 Act, classify investments based on the level of control that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is deemed as “non-controlled” when we own less than 25% of a portfolio company’s voting securities and “controlled” when we own 25% or more of a portfolio company’s voting securities.
- (2) The provisions of the 1940 Act classify investments further based on the level of ownership that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is deemed as “non-affiliated” when we own less than 5% of a portfolio company’s voting securities and “affiliated” when we own 5% or more of a portfolio company’s voting securities.
- (3) Valued based on our accounting policy (see Note 2 to our Consolidated Financial Statements).
- (4) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable London Interbank Offered Rate, or LIBOR or “L,” or Prime Rate, or Prime or “P”.
- (5) Security is exempt from registration under Rule 144A promulgated under the Securities Act of 1933, as amended, or the Securities Act. The security may be resold in transactions that are exempt from registration, usually to qualified institutional buyers.
- (6) Coupon is payable in cash and/or through payment-in-kind, or PIK. The PIK percentage represents the payment in PIK at the date of the report and is subject to change.
- (7) Non-income producing securities.
- (8) Coupon is subject to a LIBOR or Prime rate floor.
- (9) Represents the purchase of a security with delayed settlement (unfunded investment). This security does not have a basis point spread above an index.
- (10) Non-U.S. company or principal place of business outside the United States.
- (11) Investment is held through PNNT Transportation 100 Holdco, LLC, a consolidated subsidiary.

- (1) The provisions of the 1940 Act classify investments based on the level of control that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is deemed as “non-controlled” when we own less than 25% of a portfolio company’s voting securities and “controlled” when we own 25% or more of a portfolio company’s voting securities.
- (2) The provisions of the 1940 Act classify investments further based on the level of ownership that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is deemed as “non-affiliated” when we own less than 5% of a portfolio company’s voting securities and “affiliated” when we own 5% or more of a portfolio company’s voting securities.
- (3) Valued based on our accounting policy (see Note 2 to our Consolidated Financial Statements).
- (4) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable LIBOR or Prime rate.
- (5) Security is exempt from registration under Rule 144A promulgated under the Securities Act. The security may be resold in transactions that are exempt from registration, usually to qualified institutional buyers.
- (6) Coupon is payable in cash and/or through PIK.
- (7) Non-income producing securities.
- (8) Coupon is subject to a LIBOR or Prime rate floor.
- (9) Represents the purchase of a security with delayed settlement (unfunded investment). This security does not have a basis point spread above an index.
- (10) Non-U.S. company or principal place of business outside the United States.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2011
(Unaudited)

1. ORGANIZATION

PennantPark Investment Corporation was organized as a Maryland corporation on January 11, 2007. PennantPark Investment is a closed-end, externally managed, non-diversified investment company that has elected to be treated as a business development company, or BDC, under the 1940 Act. PennantPark Investment's objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle-market companies in the form of senior secured loans, mezzanine debt and equity investments.

On April 24, 2007, we closed our initial public offering and our common stock trades on the NASDAQ Global Select Market under the symbol "PNNT." We completed our initial public offering of common stock in 2007 and issued 21.0 million shares raising \$294.1 million in net proceeds. Since our initial public offering, we have sold 24.3 million shares of common stock through follow-on public offerings, resulting in net proceeds of \$242.5 million.

We are externally managed by PennantPark Investment Advisers, LLC, or the Investment Adviser or PennantPark Investment Advisers. PennantPark Investment Administration, LLC, or the Administrator or PennantPark Investment Administration, provides the administrative services necessary for us to operate.

SBIC LP and its general partner, SBIC GP, were organized in Delaware as a limited partnership and a limited liability company, respectively, in May, 2010 and began operations on June 11, 2010. SBIC LP received a license from the Small Business Administration, or SBA, to operate as an SBIC effective July 30, 2010 under Section 301(c) of the Small Business Investment Act of 1958, or the 1958 Act. Both SBIC LP and SBIC GP, or the Subsidiaries, are consolidated wholly owned subsidiaries of PennantPark Investment. The SBIC LP's objective is to generate both current income and capital appreciation through debt and equity investments. SBIC LP, generally, invests with us in SBA eligible businesses that meet the investment criteria used by PennantPark Investment.

PennantPark Investment, through the Investment Adviser, manages day-to-day operations of and provides investment advisory services to SBIC LP under a separate investment management agreement. PennantPark Investment, through the Administrator, also provides similar services to SBIC LP and our controlled affiliate SuttonPark Holdings, Inc. and its subsidiaries, or SPH, under separate administration agreements. See Note 3 to the Consolidated Financial Statements.

2. SIGNIFICANT ACCOUNTING POLICIES

The preparation of Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of PennantPark Investment's and its Subsidiaries' assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of income and expenses during the reported period. Actual results could differ from these estimates. We have reclassified certain prior period amounts to conform to the current period presentation. We have eliminated all intercompany balances and transactions. References to the Accounting Standards Codification, or ASC, serve as a single source of accounting literature. Subsequent events are evaluated and disclosed as appropriate for events occurring through the date the Consolidated Financial Statements are issued.

Our Consolidated Financial Statements are prepared in accordance with GAAP and pursuant to the requirements for reporting on Form 10-Q and Article 6 or 10 of Regulation S-X, as appropriate. In accordance with Article 6-09 of Regulation S-X under the Securities and Exchange Act of 1934, as amended, or the Exchange Act, we are providing a Consolidated Statement of Changes in Net Assets in lieu of a Consolidated Statement of Changes in Stockholders' Equity.

Our significant accounting policies consistently applied are as follows:

(a) Investment Valuations

Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at the bid prices obtained from at least two broker/dealers if available, otherwise by a principal market maker or a primary market dealer. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available. Investments of sufficient credit quality purchased within 60 days of maturity are valued at cost plus accreted discount, or minus amortized premium, which approximates fair value.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

We expect that there will not be readily available market values for many of our investments which are or will be in our portfolio, and we value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy, described herein, and a consistently applied valuation process. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and the differences may be material. See Note 5 to the Consolidated Financial Statements.

With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- (1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment;
- (2) Preliminary valuation conclusions are then documented and discussed with the management of our Investment Adviser;
- (3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment. The independent valuation firms review management's preliminary valuations in light of their own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker;
- (4) The audit committee of our board of directors reviews the preliminary valuations of the Investment Adviser and that of the independent valuation firms and responds and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and
- (5) Our board of directors discusses these valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.

(b) Security Transactions, Revenue Recognition, and Realized / Unrealized Gains or Losses

Security transactions are recorded on a trade-date basis. We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment and our senior secured revolving credit agreement, or the Credit facility, values during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest, which represents interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest when the portfolio company valuation indicates that such PIK interest is not collectable. We do not accrue as a receivable interest on loans and debt investments if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount, market discount or premium and deferred financing costs are capitalized and we then accrete or amortize such amounts using the effective interest method as interest income or interest expense as it relates to our deferred financing costs. We record prepayment premiums on loans and debt investments as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts.

Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or when there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

(c) Income Taxes

Since May 1, 2007, PennantPark Investment has complied with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code, and expects to be subject to tax as a regulated investment company, or RIC. As a result, PennantPark Investment accounts for income taxes using the asset liability method prescribed by ASC 740, Income Taxes. Under this method, income taxes were provided for amounts currently payable and for amounts deferred as tax assets and liabilities based on differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. Based upon PennantPark Investment's qualification and election to be subject to tax as a RIC, we do not anticipate paying any material level of federal income taxes in the future. Although we are not subject to tax as a RIC, we have elected to retain a portion of our calendar year income and recorded an excise tax of approximately \$0.1 million for the three months ended December 31, 2011 and 2010.

PennantPark Investment recognizes in its Consolidated Financial Statements the effect of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. We did not have any uncertain tax positions that met the recognition or measurement criteria of ASC 740-10-25 nor did we have any unrecognized tax benefits as of the periods presented herein. Although we file federal and state tax returns, our major tax jurisdiction is federal. Our tax returns for each of our federal tax years from 2008 to date remain subject to examination by the Internal Revenue Service and the state department of revenue.

Book and tax basis differences relating to permanent book and tax differences are reclassified among PennantPark Investment's capital accounts, as appropriate. Additionally, the tax character of distributions is determined in accordance with income tax regulations that may differ from GAAP.

We have formed and used certain taxable subsidiaries, or the Taxable Subsidiaries, to be taxed as a corporation for federal income tax purposes as listed on our Consolidated Schedule of Investments. These Taxable Subsidiaries allow us to hold portfolio companies organized as pass-through entities and still satisfy RIC requirements. We do not consolidate the taxable subsidiaries for income tax purposes but we do consolidate the results of these subsidiaries for financial reporting purposes.

(d) Dividends, Distributions, and Capital Transactions

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount, if any, to be paid as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually.

Capital transactions, in connection with our dividend reinvestment plan or through offerings of our common stock, are recorded when issued and offering costs are charged as a reduction of capital upon issuance of our common stock.

(e) Consolidation

As permitted under Regulation S-X and as explained by ASC 946-810-45, PennantPark Investment will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we have consolidated the results of the Subsidiaries and Taxable Subsidiaries in our Consolidated Financial Statements.

(f) New Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, or ASU 2011-04. ASU 2011-04 amends ASC Topic 820, "Fair Value Measurements", or ASC 820, by: (1) clarifying that certain concepts related to measuring the fair value apply only to non-financial assets; (2) allowing a reporting entity to measure the fair value of a net asset or net liability position in a manner consistent with how market participants would price the position; (3) providing a framework for selecting a premium or discount that may be applied in a fair value measurement; (4) providing that an instrument classified in a reporting entity's shareholders' equity may be fair valued based how a market participant would price the identical instrument; and (5) expanding the qualitative and quantitative fair value disclosure requirements. These amendments are effective for fiscal years beginning after December 15, 2011 and for interim periods within those fiscal years. The amendments of ASU 2011-04, when adopted, are not expected to have a material impact on our Consolidated Financial Statements and the company is currently evaluating the impact on its disclosures.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

3. AGREEMENTS

PennantPark Investment's investment management agreement, or the Investment Management Agreement, with the Investment Adviser was re-approved by our board of directors, including a majority of our directors who are not interested persons of PennantPark Investment, in February 2012. Under the Investment Management Agreement the Investment Adviser, subject to the overall supervision of PennantPark Investment's board of directors, manages the day-to-day operations of and provides investment advisory services to, PennantPark Investment. SBIC LP's investment management agreement does not affect the management or incentive fees that we pay to the Investment Adviser on a consolidated basis. For providing these services, the Investment Adviser receives a fee from us, consisting of two components—a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 2.00% on our "average adjusted gross assets" (net of U.S. Treasury Bills and/or temporary draws, if any, on the Credit Facility, as defined in Note 10). The base management fee is 2.00% and is payable quarterly in arrears. The base management fee is calculated based on the average adjusted gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. For the three months ended December 31, 2011 and 2010, the Investment Adviser earned a base management fee of \$4.0 million and \$3.5 million, respectively, from us.

The incentive fee has two parts, as follows:

One part is calculated and payable quarterly in arrears based on our Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For this purpose, Pre-Incentive Fee Net Investment Income means interest income, distribution income and any other income, including any other fees other than fees for providing managerial assistance, such as commitment, origination, structuring, diligence and consulting fees or other fees received from portfolio companies accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, any expenses payable under the Administration Agreement, and any interest expense and distribution paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of PennantPark Investment's net assets at the end of the immediately preceding calendar quarter, is compared to the hurdle rate of 1.75% per quarter (7.00% annualized). We pay the Investment Adviser an incentive fee with respect to our Pre-Incentive Fee Net Investment Income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 1.75%, (2) 100% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.1875% in any calendar quarter (8.75% annualized), and (3) 20% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.1875% in any calendar quarter. These calculations are adjusted for any share issuances or repurchases during the current quarter. For the three months ended December 31, 2011 and 2010, the Investment Adviser earned an incentive fee of \$3.7 million and \$2.8 million, respectively, from us.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement, as of the termination date) and equals 20.0% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. The performance based incentive fee on capital gains due to our Investment Adviser as calculated under the Investment Management Agreement (as described in the preceding paragraph) for the three months ended December 31, 2011 resulted in no accrual.

In calculating the capital gains incentive fee accrual we considered the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Management Agreement. This accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then we record a capital gains incentive fee equal to 20.0% of such amount, less the aggregate amount of actual capital gains related incentive fees paid in all prior years. If such amount is negative, then there is no accrual for such year. There can be no assurance that such unrealized capital appreciation will be realized in the future.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

PennantPark Investment's Administration Agreement with the Administrator was reapproved by our board of directors including a majority of our directors who are not interested persons of PennantPark Investment, in February 2012. Under the Administration Agreement PennantPark Investment Administration provides administrative services for PennantPark Investment. The Administrator provides similar services to SBIC LP under its administration agreement with PennantPark Investments. For providing these services, facilities and personnel, PennantPark Investment reimburses the Administrator for its allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including rent, technology systems, insurance and PennantPark Investment's allocable portion of the costs of the compensation and related expenses for its chief compliance officer, chief financial officer and their respective staffs. The Administrator also offers, on PennantPark Investment's behalf, managerial assistance to portfolio companies to which PennantPark Investment is required to offer such assistance. Reimbursement for certain of these costs is included in administrative services expenses in the Consolidated Statement of Operations. For the three months ended December 31, 2011 and 2010, the Investment Adviser and Administrator, collectively, were reimbursed \$0.7 million and \$0.6 million, respectively, from us, including expenses it incurred on behalf of the Administrator, for services described above.

PennantPark Investment entered into an administration agreement with its controlled affiliate, Sutton Park Holdings, or SPH. Under the administration agreement with SPH, or the SPH Administration Agreement, PennantPark Investment through the Administrator furnishes SPH with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities. Additionally, the Administrator performs or oversees the performance of SPH's required administrative services, which include, among other things, maintaining financial records, preparing financial reports and filing of tax returns. Payments under the SPH Administration Agreement are equal to an amount based upon SPH's allocable portion of the Administrator's overhead in performing its obligations under the SPH Administration Agreement, including rent and allocable portion of the cost of compensation and related expenses of our chief financial officer and their respective staffs. For the three months ended December 31, 2011 and 2010, the PennantPark Investment was reimbursed \$0.2 million and \$0.1 million, respectively, for the services described above.

4. INVESTMENTS

Purchases of long-term investments, including PIK, for the three months ended December 31, 2011 and 2010 totaled \$46.1 million and \$102.9 million, respectively. Sales and repayments of long-term investments for the three months ended December 31, 2011 and 2010 totaled \$69.3 million and \$85.5 million, respectively.

Investments and cash equivalents consisted of the following:

	<u>December 31, 2011</u>		<u>September 30, 2011</u>	
	<u>Cost</u>	<u>Fair Value</u>	<u>Cost</u>	<u>Fair Value</u>
First lien	\$275,110,038	\$262,081,858	\$305,608,989	\$296,488,131
Second lien	189,789,050	162,447,811	189,962,828	165,272,201
Subordinated debt / corporate notes	325,854,490	316,563,299	325,318,958	309,329,169

Manufacturing / Basic Industry	1	1
Other	3	5
Total	<u>100%</u>	<u>100%</u>

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value, as defined under ASC 820, is the price that we would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment or liability. ASC 820 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of us. Unobservable inputs reflect the assumptions market participants would use in pricing an asset or liability based on the best information available to us on the reporting period date.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchies:

- Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities, accessible by us at the measurement date.
- Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets, or that are quoted prices for identical or similar assets or liabilities in markets that are not active and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term, if applicable, of the financial instrument.
- Level 3: Inputs that are unobservable for an asset or liability because they are based on our own assumptions about how market participants would price the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Generally, most of our investments and Credit Facility (See Note 10) are classified as Level 3. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and those differences may be material.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

The inputs into the determination of fair value may require significant management judgment or estimation. Even if observable market data is available, such information may be the result of consensus pricing information or broker quotes which include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes accompanied by disclaimer would result in classification as Level 3 information, assuming no additional corroborating evidence was available. Corroborating evidence that would result in classifying these non-binding broker/dealer bids as a Level 2 asset includes observable market-based transactions for the same or similar assets or other relevant observable market based inputs that may be used in pricing an asset.

Our investments are generally structured as debt and equity investments in the form of senior secured loans, mezzanine debt and equity co-investments. The transaction price, excluding transaction costs, is typically the best estimate of fair value at inception. When evidence supports a subsequent change to the carrying value from the original transaction price, adjustments are made to reflect the expected exit values. Ongoing reviews by our Investment Adviser and independent valuation firms are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, expected cash flows and market-based information, including comparable transactions and performance multiples, among other factors. These nonpublic investments are included in Level 3 of the fair value hierarchy.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in our ability to observe valuation inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in or out of the Level 3 category as of the end of the quarter in which the reclassifications occur. During the three months ended December 31, 2011, our ability to observe valuation inputs has not resulted in a reclassification of assets from Level 3 to 2. There were no investments transferred between Level 1 and 2 during the three months ended December 31, 2011.

In addition to using the above inputs in cash equivalents, investments and Credit Facility valuations, we employ the valuation policy approved by our board of directors that is consistent with ASC 820 (See Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value.

At December 31, 2011 and September 30, 2011, our cash equivalents, investments and our Credit Facility were categorized as follows in the fair value hierarchy for ASC 820 purposes.

<u>Description</u>	<u>Fair Value at December 31, 2011</u>			
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Loan and debt investments	\$741,092,968	\$ —	\$40,033,161	\$701,059,807

The following tables show a reconciliation of the beginning and ending balances for fair valued liabilities measured using significant unobservable inputs (Level 3) for the three months ended December 31, 2011 and 2010. There were no temporary draws outstanding at December 31, 2011 and 2010.

Period Ended December 31, 2011

Credit Facility	Carrying / Fair Value
Beginning balance, October 1, 2011 (Cost – \$240,900,000)	\$ 238,792,125
Total unrealized appreciation included in earnings	1,147,875
Borrowings ⁽¹⁾	242,200,000
Repayments ⁽¹⁾	(291,100,000)
Transfers in and/or out of Level 3	—
Ending Balance, December 31, 2011 (Cost – \$192,000,000)	<u>\$ 191,040,000</u>

Period Ended December 31, 2010

Credit Facility	Carrying / Fair Value
Beginning balance, October 1, 2010 (Cost – \$227,900,000)	\$ 213,941,125
Total unrealized appreciation included in earnings	6,604,625
Borrowings ⁽¹⁾	95,400,000
Repayments ⁽¹⁾	(67,500,000)
Transfers in and/or out of Level 3	—
Ending Balance, December 31, 2010 (Cost – \$255,800,000)	<u>\$ 248,445,750</u>

⁽¹⁾ Excludes temporary draws.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

We adopted ASC 825-10, which provides companies with an option to report selected financial assets and liabilities at fair value, and made an irrevocable election to apply ASC 825-10 to our Credit Facility. We elected to use the fair value option for the Credit Facility to align the measurement attributes of both our assets and liabilities while mitigating volatility in earnings from using different measurement attributes. ASC 825-10 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect on earnings of a company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statement of Assets and Liabilities and changes in fair value of the Credit Facility are recorded in the Consolidated Statement of Operations. We elected not to apply ASC 825-10 to any other financial assets or liabilities, including the SBA debentures. For the three months ended December 31, 2011 and 2010, our Credit Facility had a net change in unrealized appreciation of \$1.1 million and \$6.6 million, respectively. On December 31, 2011 and September 30, 2011, net unrealized depreciation on our Credit Facility totaled \$1.0 million and \$2.1 million, respectively. We use a nationally recognized independent valuation services to measure the fair value of our Credit Facility in a manner consistent with the valuation process that the board of directors uses to value investments.

6. TRANSACTIONS WITH AFFILIATED COMPANIES

An affiliated company is a company in which we have ownership of 5% or more of the portfolio company's voting securities. A controlled affiliate is a company in which we own 25% or more of a portfolio company's voting securities. Advances to and distributions from affiliates are included in the Consolidated Statements of Cash Flow under purchases and sales. Transactions related to our investments with both controlled and non-controlled affiliates for the three months ended December 31, 2011 were as follows:

<u>Name of Investment</u>	<u>Fair Value at September 30, 2011</u>	<u>Advances to Affiliates</u>	<u>Distributions from Affiliates</u>	<u>Income Received</u>	<u>Fair Value at December 31, 2011</u>
Controlled Affiliates					
SuttonPark Holdings, Inc.	\$ 13,500,001	\$ 1,500,000	\$(3,500,000)	\$ 379,166	\$ 11,500,000
Non-Controlled Affiliates					
Performance Holdings, Inc.	14,932,921	—	—	399,100	15,411,184
Envirosolutions, Inc.	25,740,212	336,342	(366,901)	202,927	27,841,530
Total Controlled and Non-Controlled Affiliates	<u>\$ 54,173,134</u>	<u>\$ 1,836,342</u>	<u>\$(3,866,901)</u>	<u>\$ 981,193</u>	<u>\$ 54,752,714</u>

7. CHANGE IN NET ASSETS FROM OPERATIONS PER COMMON SHARE

The following information sets forth the computation of basic and diluted per share net increase in net assets resulting from operations.

<u>Class and Year</u>	<u>Three Months Ended December 31, 2011</u>	<u>Three Months Ended December 31, 2010</u>
Numerator for net increase in net assets resulting from operations	\$15,845,524	\$25,522,223
Denominator for basic and diluted weighted average shares	45,689,781	36,218,991
Basic and diluted net increase in net assets per share resulting from operations	\$ 0.34	\$ 0.71

8. CASH EQUIVALENTS

Cash equivalents represent cash pending investment in longer-term portfolio holdings. Our portfolio may consist of temporary investments in U.S. Treasury Bills (of varying maturities), repurchase agreements, money market funds or repurchase agreement-like treasury securities. These temporary investments with maturities of 90 days or less are deemed cash equivalents and are included in the Consolidated Schedules of Investments. At the end of each fiscal quarter, we may take proactive steps to preserve investment flexibility for the next quarter by investing in cash equivalents, which is dependent upon the composition of its total assets at quarter end. We may accomplish this in several ways, including purchasing U.S. Treasury Bills and closing out positions on a net cash basis after quarter-end, temporarily drawing down on the Credit Facility, or utilizing repurchase agreements or other balance sheet

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

transactions as are deemed appropriate for this purpose. These amounts are excluded from adjusted gross assets for purposes of computing the Investment Adviser's management fee. U.S. Treasury Bills with maturities greater than 60 days from the time of purchase are valued consistent with our valuation policy. As of December 31, 2011 and September 30, 2011, cash equivalents consisted of \$42.1 million and \$71.6 million, including amounts in money market funds, respectively.

9. FINANCIAL HIGHLIGHTS

Our net assets and net asset value per share on December 31, 2011 and 2010 were \$465.7 million and \$403.4 million, respectively, and \$10.19 and \$11.14, respectively. Below are the financial highlights for the three months ended December 31, 2011 and 2010.

	Three Months Ended December 31, 2011	Three Months Ended December 31, 2010
Per Share Data:		
Net asset value, beginning of period	\$ 10.13	\$ 10.69
Net investment income ⁽¹⁾	0.33	0.31
Net change in realized and unrealized gain ⁽¹⁾	0.01	0.40
Net increase in net assets resulting from operations ⁽¹⁾	0.34	0.71
Dividends to stockholders ^{(1), (2)}	(0.28)	(0.26)
Net asset value, end of period	\$ 10.19	\$ 11.14
Per share market value, end of period	\$ 10.09	\$ 12.25
Total return * ⁽³⁾	16.19%	17.91%
Shares outstanding at end of period	45,689,781	36,223,950
Ratios ** / Supplemental Data:		
Ratio of operating expenses to average net assets	8.10%	7.67%
Ratio of Credit Facility and SBA debentures related expenses to average net assets	2.03%	1.14%
Ratio of total expenses to average net assets	10.13%	8.81%
Ratio of net investment income to average net assets	12.83%	11.17%
Net assets at end of period	\$ 465,709,582	\$ 403,390,962
Average debt outstanding	\$ 360,666,304	\$ 290,552,174
Average debt per share	\$ 7.89	\$ 8.02
Portfolio turnover ratio	21.46%	49.80%

* Not annualized for periods less than one year.

** Annualized for periods less than one year.

(1) Per share data are calculated based on the weighted average shares outstanding for the respective periods.

(2) Dividends and distributions are determined based on taxable income calculated in accordance with income tax regulations, which may differ from amounts determined under GAAP.

(3) Total return is based on the change in market price per share during the period and takes into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan.

10. CREDIT FACILITY AND SBA DEBENTURES

Credit Facility

On June 25, 2007, we entered into a senior secured revolving credit agreement, or the Credit Facility, among us, various lenders and SunTrust Bank, as administrative agent for the lenders. As of December 31, 2011 and September 30, 2011, there was \$192.0 million and \$240.9 million, respectively, in outstanding borrowings under the Credit Facility, with a weighted average interest rate at the time of 1.28% and 1.27% exclusive of the fee on undrawn commitments of 0.20%, respectively.

Under our Credit Facility, the lenders agreed to extend credit to us in an aggregate principal or face amount not exceeding \$315.0 million at any one time outstanding. The Credit Facility is a five-year revolving facility (with a stated maturity date of June 25, 2012) and pricing is set at 100 basis points over LIBOR. The Credit Facility contains customary affirmative and negative covenants, including the maintenance of a minimum stockholders' equity, the maintenance of an asset coverage ratio not less than 200% of total assets (less total liabilities other than indebtedness) to total indebtedness, and restrictions on certain payments and issuance of debt.

PENNANTPARK INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
DECEMBER 31, 2011
(Unaudited)

In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing, excluding SBA Debentures, pursuant to exemptive relief from the Securities and Exchange Commission, or SEC. For a complete list of such covenants, see our report on Form 8-K, filed June 28, 2007 and on Form 10-Q, filed May 5, 2010. As of December 31, 2011, we were in compliance with our covenants relating to our Credit Facility.

SBA Debentures

SBIC LP is able to borrow funds from the Small Business Administration, or SBA, against regulatory capital (which approximates equity capital) that is paid-in and is subject to customary regulatory requirements. We had committed and funded SBIC LP with \$75.0 million of equity capital, and had SBA debentures outstanding of \$150.0 million. SBA debentures are non-recourse to us, have a 10-year maturity, and may be prepaid at any time without penalty. The interest rate of SBA debentures is fixed at the time of issuance, often referred to as pooling, at a market-driven spread over 10-year U.S. Treasury Notes. SBA current regulations limit the amount that SBIC LP may borrow to a maximum of \$150 million, which is up to twice its potential regulatory capital. SBIC LP has accessed the maximum borrowing with its \$75.0 million in regulatory capital.

As of December 31, 2011, \$150.0 million in debt commitments were fully drawn with a weighted average interest rate of 3.70% exclusive of the 3.43% in upfront fees (4.04% inclusive of the upfront fees). The SBA debentures upfront fees of 3.43% consist of a commitment fee of 1.00% and an issuance at a 2.43% discount to face. Both fees are amortized over the lives of the loans. Our fixed rate SBA debentures as of December 31, 2011 and September 30, 2011 are as follows:

<u>Issuance Dates</u>	<u>Maturity</u>	<u>All-in Coupon Rate ⁽¹⁾</u>	<u>Principal Balance</u>
Fixed Rate SBA Debentures			
September 22, 2010	September 1, 2020	3.50%	\$ 500,000
March 29, 2011	March 1, 2021	4.46%	44,500,000
September 21, 2011	September 1, 2021	3.38%	105,000,000
		<u>3.70%</u>	<u>\$150,000,000</u>

⁽¹⁾ Excluding 3.43% of upfront fees.

Under SBA regulations, SBIC LP is subject to regulatory requirements, including making investments in SBA eligible businesses, investing at least 25% of regulatory capital in eligible smaller businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, prohibiting investing in certain industries, requiring capitalization thresholds and being subject to periodic audits and examinations of its financial statements that are prepared on a basis of accounting other than U.S. GAAP (for example, fair value, as defined under ASC 820, is not required to be used for assets or liabilities for such compliance reporting). If our SBIC subsidiary fails to comply with applicable SBA regulations the SBA could, depending on the severity of the violation, limit or prohibit its use of debentures, declare outstanding debentures immediately due and payable and/or limit it from making new investments. These actions by the SBA would, in turn, negatively affect us because SBIC LP is wholly owned by us. As of December 31, 2011, SBIC LP was in compliance with our requirements relating to our SBA debentures.

On June 1, 2011, we received exemptive relief from the SEC allowing us to modify the asset coverage requirement to exclude the SBA debentures from the calculation. Accordingly, our ratio of total assets on a consolidated basis to outstanding indebtedness may be less than 200%, which while providing increased investment flexibility, would also increase our exposure to risks associated with leverage.

Our net asset value may decline as a result of economic conditions in the United States. Our continued compliance with the covenants under our Credit Facility and SBA debentures depend on many factors, some of which are beyond our control. Material net asset devaluation could have a material adverse effect on our operations and could require us to reduce our borrowings under our Credit Facility and SBA debentures in order to comply with certain covenants including the ratio of total assets to total indebtedness.

DECEMBER 31, 2011
(Unaudited)

11. COMMITMENTS AND CONTINGENCIES

From time to time, we, the Investment Adviser or the Administrator may be a party to legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations. Unfunded debt investments described in the Consolidated Statement of Assets and Liabilities represent unfunded delayed draws on investments.

12. SUBSEQUENT EVENTS

Subsequent to December 31, 2011, we completed a public offering of 10,350,000 shares of common stock, including the underwriters' over-allotment option, at a public offering price of \$10.55 per share, raising approximately \$109,192,500 in gross proceeds.

We are currently in discussions with our existing lenders and others to amend and restate our existing \$315.0 million senior secured revolving Credit Facility which is scheduled to mature in June of this year. We currently expect the amended and restated credit facility to be at least \$350 million, priced at LIBOR +275 with an unused fee of 50 basis points, to have a four-year maturity, with a one-year term out period following its third year, to have the same security to the same extent as in place for our existing Credit Facility and to include customary covenants, including a minimum asset coverage and minimum equity covenant. The amended and restated credit facility is not fully committed and the size and terms of such credit facility remain subject to change. Further, no assurances can be given that we will successfully enter into such an amended and restated credit facility.

Subsequent to December 31, 2011, Standard and Poor's Ratings Services and Fitch Ratings Services assigned us an investment grade rating of BBB-.

Since December 31, 2011, we have invested \$73 million.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
PennantPark Investment Corporation and Subsidiaries

We have reviewed the accompanying consolidated statement of assets and liabilities of PennantPark Investment Corporation and Subsidiaries (the "Company"), including the consolidated schedules of investments, as of December 31, 2011, and the consolidated statements of operations, changes in net assets, and cash flows for the three month periods ended December 31, 2011 and 2010. These interim consolidated financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquires of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of assets and liabilities of PennantPark Investment Corporation and Subsidiaries, including the consolidated schedule of investments, as of September 30, 2011; and in our report dated November 16, 2011, we expressed an unqualified opinion on that financial statement and schedule.

Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FORWARD-LOOKING STATEMENTS

This Report, including the Management’s Discussion and Analysis of Financial Condition and Results of Operations, contains statements that constitute forward-looking statements, which relate to future events or our future performance or financial condition. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs and our assumptions. The forward-looking statements contained in this Report involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our prospective portfolio companies;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of investments that we expect to make;
- the impact of fluctuations in interest rates on our business;
- our contractual arrangements and relationships with third parties;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- the ability of our prospective portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital;
- the timing of cash flows, if any, from the operations of our prospective portfolio companies; and
- the ability of PennantPark Investment Advisers, LLC, or the Investment Adviser, to locate suitable investments for us and to monitor and administer our investments.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “seeks,” “plans,” “estimates” and similar expressions to identify forward-looking statements. You should not place undue influence on the forward looking statements as our actual results could differ materially from those projected in the forward-looking statements for any reason.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this Report should not be regarded as a representation by us that our plans and objectives will be achieved.

We have based the forward-looking statements included in this Report on information available to us on the date of this Report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements in this Report, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the Securities and Exchange Commission, or SEC, including reports on Form 10-Q/K and current reports on Form 8-K.

You should understand that under Sections 27A(b)(2)(B) of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E(b)(2)(B) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 do not apply to statements made in periodic reports we file under the Exchange Act.

The following analysis of our financial condition and results of operations should be read in conjunction with our Consolidated Financial Statements and the related notes thereto contained elsewhere in this Report.

Overview

PennantPark Investment Corporation is a business development company, or BDC, whose objectives are to generate both current income and capital appreciation through debt and equity investments primarily in U.S. middle-market companies in the form of senior secured loans, mezzanine debt and equity investments.

[Table of Contents](#)

We believe the middle-market offers attractive risk-reward to investors due to the limited amount of capital available for such companies. We seek to create a diversified portfolio that includes senior secured loans, mezzanine debt and equity investments by investing approximately \$10 to \$50 million of capital, on average, in the securities of middle-market companies. We use the term “middle-market” to refer to companies with annual revenues between \$50 million and \$1 billion. We expect this investment size to vary proportionately with the size of our capital base. The companies in which we invest are typically highly leveraged, and, in most cases, are not rated by national rating agencies. If such companies were rated, we believe that they would typically receive a rating below investment grade (between BB and CCC under the Standard & Poor’s system) from the national rating agencies. In addition, we expect our debt investments to generally range in maturity from three to ten years.

Our investment activity depends on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity for such companies, the general economic environment and the competitive environment for the types of investments we make. Turmoil in the credit markets has adversely affected each of these factors and has resulted in a broad-based reduction in the demand for, and valuation of, middle-market debt instruments. These conditions have presented us with and may continue to offer attractive investment opportunities, as we believe that there are many middle-market companies that need senior secured and mezzanine debt financing. We have used, and expect to continue to use, our senior secured revolving credit facility, or the Credit Facility, the SBA debentures, proceeds from the rotation of our portfolio, proceeds from public and private offerings of securities to finance our investment objectives.

Organization and Structure of PennantPark Investment Corporation

PennantPark Investment Corporation was organized under the Maryland General Corporation Law in January 2007. We are a closed-end, externally managed, non-diversified investment company that has elected to be treated as a BDC under the Investment Company Act of 1940, as amended, or the 1940 Act. As such, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in “qualifying assets”, including securities of U.S. private companies or thinly traded public companies, public companies with a market capitalization of less than \$250 million, cash, cash equivalents, U.S. government securities and high quality debt investments that mature in one year or less. In addition, for tax purposes we intend to continue to be treated as a regulated investment company, or RIC, and qualify annually under the Internal Revenue Code of 1986, as amended, or the Code.

Our wholly owned subsidiary, SBIC LP was organized as a Delaware limited partnership in May 2010 and received a license from the Small Business Administration, or the SBA, to operate as a small business investment company, or SBIC, under Section 301(c) of the Small Business Investment Company Act of 1958, as amended, or the 1958 Act, in July 2010. SBIC LP’s objective is to generate both current income and capital appreciation through debt and equity investments. SBIC LP, generally, invests with us in SBA eligible businesses that meet the investment criteria used by PennantPark Investment.

Our investment activities are managed by the Investment Adviser. Under our investment management agreement with the Investment Adviser, or the Investment Management Agreement, we have agreed to pay our Investment Adviser an annual base management fee based on our average adjusted gross total assets as well as an incentive fee based on our investment performance. PennantPark Investment, through the Investment Adviser, provides similar services to SBIC LP under its investment management agreement. The SBIC LP investment management agreement does not affect the management and incentive fees on a consolidated basis. We have also entered into an administration agreement, or the Administration Agreement, with PennantPark Investment Administration LLC, or the Administrator. Under our Administration Agreement, we have agreed to reimburse the Administrator for our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under our Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our chief compliance officer, chief financial officer and their respective staffs. PennantPark Investment, through the Administrator, provides similar services to SBIC LP under its administration agreement with us. Our board of directors, a majority of whom are independent of us and the Investment Adviser, supervise our activities.

Revenues

We generate revenue in the form of interest income on the debt securities we hold and capital gains and distributions, if any, on investment securities that we may acquire in portfolio companies. Our debt investments, whether in the form of senior secured loans or mezzanine debt, typically have a term of three to ten years and bear interest at a fixed or floating rate. Interest on debt securities is generally payable quarterly or semiannually. In some cases, some of our investments provide for deferred interest payments or payment-in-kind, or PIK, interest. The principal amount of the debt securities and any accrued but unpaid interest generally becomes due at the maturity date. In addition, we may generate revenue in the form of commitment, origination, structuring or diligence fees, fees for providing managerial assistance and possibly consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts as income. We record prepayment premiums on loans and debt securities as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts.

Expenses

Our primary operating expenses include the payment of management fees to our Investment Adviser, our allocable portion of overhead under our Administration Agreement and other operating costs as detailed below. Our management fee compensates our Investment Adviser for its work in identifying, evaluating, negotiating, consummating and monitoring our investments. Additionally, we pay interest expense on the outstanding debt we accrue under our Credit Facility and SBA debentures. We bear all other direct or indirect costs and expenses of our operations and transactions, including:

- the cost of calculating our net asset value, including the cost of any third-party valuation services;
- the cost of effecting sales and repurchases of shares of our common stock and other securities;
- fees payable to third parties relating to, or associated with, making investments, including fees and expenses associated with performing due diligence and reviews of prospective investments or complimentary businesses;
- expenses incurred by the Investment Adviser in performing due diligence and reviews of investments;
- transfer agent and custodial fees;
- fees and expenses associated with marketing efforts;
- federal and state registration fees and any stock exchange listing fees;
- federal, state and local taxes;
- independent directors' fees and expenses;
- brokerage commissions;
- fidelity bond, directors and officers/errors and omissions liability insurance and other insurance premiums;
- direct costs such as printing, mailing, long distance telephone and staff;
- fees and expenses associated with independent audits and outside legal costs;
- costs associated with our reporting and compliance obligations under the 1940 Act, the 1958 Act and applicable federal and state securities laws; and
- all other expenses incurred by either the Administrator or us in connection with administering our business, including payments under our Administration Agreement that will be based upon our allocable portion of overhead, and other expenses incurred by the Administrator in performing its obligations under our Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our chief compliance officer, chief financial officer and their respective staffs.

During periods of asset growth, we expect our general and administrative expenses to be relatively stable or to decline as a percentage of total assets and increase during periods of asset declines. Incentive fees, interest expense and costs relating to future offerings of securities would be additive to the expenses described above.

PORTFOLIO AND INVESTMENT ACTIVITY

As of December 31, 2011, our portfolio totaled \$810.4 million and consisted of \$262.1 million of senior secured loans, \$162.4 million of second lien secured debt, \$316.6 million of subordinated debt and \$69.3 million of preferred and common equity investments. Our portfolio consisted of 63% fixed-rate and 37% variable-rate investments (including 29% with a London Interbank Offered Rate, or LIBOR, or prime floor). On December 31, 2011, we had two non-accrual debt investments, representing 1.5% of our overall portfolio on a fair value basis and 4.8% of our overall portfolio on a cost basis. Our overall portfolio consisted of 46 companies with an average investment size of \$17.6 million, a weighted average yield on debt investments of 13.2%, and was invested 32% in senior secured loans, 20% in second lien secured debt, 39% in subordinated debt and 9% in preferred and common equity investments.

As of September 30, 2011, our portfolio totaled \$827.5 million and consisted of \$296.5 million of senior secured loans, \$165.3 million of second lien secured debt, \$309.3 million of subordinated debt and \$56.4 million of preferred and common equity investments. Our portfolio consisted of 61% fixed-rate investments and 39% variable-rate investments (including 31% with a LIBOR or prime floor). Our overall portfolio consisted of 48 companies with an average investment size of \$17.2 million, a weighted average yield on debt investments of 13.3%, and was invested 36% in senior secured loans, 20% in second lien secured debt, 37% in subordinated debt and 7% in preferred and common equity investments.

For the three months ended December 31, 2011, we invested \$43.0 million in one new portfolio company and seven existing portfolio companies with a weighted average yield on debt investments of 16.4%. Sales and repayments of long-term investments for the three months ended December 31, 2011 totaled \$69.3 million.

[Table of Contents](#)

For the three months ended December 31, 2010, we invested \$99.9 million in six new portfolio companies and one existing portfolio company with a weighted average yield on debt investments of 15.0% (yield on debt investments, excluding value of attached equity, was 14.0%). Sales and repayments of long term investments for the three months ended December 31, 2010 totaled \$85.5 million.

CRITICAL ACCOUNTING POLICIES

The discussion of our financial condition and results of operation is based upon our Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP. The preparation of these Consolidated Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the reporting period. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. In addition to the discussion below, we describe our critical accounting policies in the notes to our Consolidated Financial Statements.

Valuation of Portfolio Investments

Our investments generally consist of illiquid securities including debt and equity investments. Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at the bid prices obtained from at least two broker/dealers if available, otherwise by a principal market maker or a primary market dealer. If our board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available. Investments of sufficient credit quality purchased within 60 days of maturity are valued at cost plus accreted discount, or minus amortized premium, which approximates fair value.

We expect that there may not be readily available market values for many of our investments which are or will be in our portfolio, and we value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy described in this Report and a consistently applied valuation process. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may differ from our valuation and the differences could be material.

With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- (1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment;
- (2) Preliminary valuation conclusions are then documented and discussed with the management of our Investment Adviser;
- (3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of an investment. The independent valuation firms review management's preliminary valuations in light of its own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker;
- (4) The audit committee of our board of directors reviews the preliminary valuations of our Investment Adviser and that of the independent valuation firms and responds and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and
- (5) Our board of directors discusses the valuations and determines the fair value of each investment in our portfolio in good faith, based on the input of our Investment Adviser, the independent valuation firms and the audit committee.

Fair value, as defined under Accounting Standards Codification, or ASC, 820, is the price that we would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment or liability. ASC 820 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of us. Unobservable inputs reflect the assumptions market participants would use in pricing an asset or liability based on the best information available to us on the reporting period date.

[Table of Contents](#)

ASC 820 classifies the inputs used to measure these fair values into the following hierarchies:

- Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities, accessible by us at the measurement date.
- Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets, or that are quoted prices for identical or similar assets or liabilities in markets that are not active and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term, if applicable, of the financial instrument.
- Level 3: Inputs that are unobservable for an asset or liability because they are based on our own assumptions about how market participants would price the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Generally, most of our investments and Credit Facility are classified as Level 3. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may differ from our valuation and those differences may be material.

The inputs into the determination of fair value may require significant management judgment or estimation. Even if observable market data are available, such data may be the result of consensus pricing information or broker quotes which may include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes from brokers/dealers accompanied by disclaimer would result in classification as Level 3 information, assuming no additional corroborating evidence was available. Corroborating evidence that would result in classifying these non-binding broker/dealer bids as a Level 2 asset includes observable market-based transactions for the same or similar assets or other relevant observable market based inputs that may be used in pricing an asset.

Our investments are generally structured as debt and equity investments in the form of senior secured loans, mezzanine debt and equity co-investments. The transaction price, excluding transaction costs, is typically the best estimate of fair value at inception. When evidence supports a subsequent change to the carrying value of an investment from the original transaction price, adjustments are made to reflect the expected exit values. Ongoing reviews by our Investment Adviser and independent valuation firms are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, expected cash flows and market-based information, including comparable transactions, performance multiples and yields, among other factors. These non-public investments using unobservable inputs are included in Level 3 of the fair value hierarchy.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in our ability to observe valuation inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in or out of the Level 3 category as of the end of the quarter in which the reclassifications occur. During the quarter ended December 31, 2011, our ability to observe valuation inputs has not resulted in a reclassification of assets from Level 3. There were no investments transferred between Level 1 and 2 during the same period.

In addition to using the above inputs in cash equivalents, investments and Credit Facility valuations, we employ the valuation policy approved by our board of directors that is consistent with ASC 820 (See Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which its investments are trading, in determining fair value.

The carrying value of our selected financial liabilities approximates fair value. We adopted ASC 825-10, which provides companies with an option to report selected financial assets and liabilities at fair value, and made an irrevocable election to apply ASC 825-10 to our Credit Facility. We elected to use the fair value option for the Credit Facility to align the measurement attributes of both our assets and liabilities while mitigating volatility in earnings from using different measurement attributes. ASC 825-10 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect on earnings of a company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statement of Assets and Liabilities and changes in fair value of the Credit Facility are recorded in the Consolidated Statement of Operations. We elected not to apply ASC 825-10 to any other financial assets or liabilities including the SBA debentures. For the three months ended December 31, 2011 and 2010, our Credit Facility had a net change in unrealized appreciation of \$1.1 million and \$6.6 million, respectively. As of December 31, 2011 and September 30, 2011, net unrealized depreciation on our Credit Facility totaled \$1.0 million and \$2.1 million, respectively. We use a nationally recognized independent valuation service to measure the fair value of our Credit Facility in a manner consistent with the valuation process that the board of directors uses to value investments.

[Table of Contents](#)

Revenue Recognition

We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest which represents contractual interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest if the portfolio company valuation indicates that such PIK interest is not collectible. We do not accrue as a receivable interest on loans and debt investments if we determine that it is probable that we will not be able to collect such interest. Loan origination fees, original issue discount, market discount or premium and deferred financing costs on our debt are capitalized, and we then amortize such amounts as interest income or expense as applicable. We record contractual prepayment premiums on loans and debt investments as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

Payment-in-Kind Interest

We have investments in our portfolio which contain a PIK interest provision. PIK interest is added to the principal balance of the investment and is recorded as income. For us to maintain our status as a RIC, substantially all of this income must be paid out to stockholders in the form of dividends, even though we have not collected any cash with respect to PIK securities.

Federal Income Taxes

We operate so as to qualify to maintain our election to be taxed as a RIC under Subchapter M of the Code and intend to continue to do so. To maintain RIC tax benefits, we must, among other requirements, meet certain source-of-income and quarterly asset diversification requirements (as described below). We also must annually distribute dividends of at least 90% of the sum of our ordinary income and realized net short-term capital gains, if any, out of the assets legally available for distribution. Although not required for us to maintain our RIC tax status, in order to preclude the imposition of a 4% nondeductible federal excise tax imposed on RICs, we may distribute during each calendar year an amount at least equal to the sum of (1) 98% of our ordinary income for the calendar year, (2) 98.2% of our realized net capital gains for the one-year period ending on October 31 of the calendar year and (3) any ordinary income and net capital gains for preceding years that were not distributed during such years. In addition, although we may distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we have retained and may continue to retain such net capital gains or ordinary income to provide us with additional liquidity.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Financial Statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

RESULTS OF OPERATIONS

Set forth below are the results of operations for the three months ended December 31, 2011 and 2010, respectively.

Investment Income

Investment income for the three months ended December 31, 2011 was \$26.8 million and was primarily attributable to \$11.0 million from senior secured loans, \$4.1 million from second lien secured debt investments and \$11.7 million from subordinated debt investments. This compares to investment income for the three months ended December 31, 2010, which was \$20.0 million, and was primarily attributable to \$8.7 million from senior secured loans, \$3.4 million from second lien secured debt investments and \$7.9 million from subordinated debt investments. The increase in investment income compared with the same period in the prior year is due to the growth of our portfolio, rotation out of our lower yielding investments and other income associated with our investments.

[Table of Contents](#)

Expenses

Expenses for the three months ended December 31, 2011 totaled \$11.8 million. Base management fees for the same period totaled \$4.0 million, performance-based incentive fees totaled \$3.7 million, Credit Facility and SBA debentures related interest and expenses totaled \$2.4 million and general and administrative expenses totaled \$1.7 million. This compares to expenses for the three months ended December 31, 2010, which totaled \$8.8 million. Base management fees for the same period totaled \$3.5 million, performance-based incentive fees totaled \$2.8 million, Credit Facility and SBA debentures related expenses totaled \$1.1 million, general and administrative expenses totaled \$1.3 million and excise taxes totaled \$0.1 million. The increase in expenses is due to the growth of the portfolio and net investment income as well as the higher cost of debt capital.

Net Investment Income

Net investment income totaled \$15.0 million, or \$0.33 per share, for the three months ended December 31, 2011, and \$11.2 million, or \$0.31 per share, for the three months ended December 31, 2010. The increase in per share net investment income over the periods was the result of the growth of our portfolio.

Net Realized Gains or Losses

Sales and repayments of long-term investments for the three months ended December 31, 2011 totaled \$69.3 million and realized losses totaled \$8.0 million due to sales of our debt investments. Sales and repayments of long-term investments totaled \$85.5 million and net realized gains totaled \$2.3 million for the three months ended December 31, 2010.

Unrealized Appreciation or Depreciation on Investments and Credit Facility

For the three months ended December 31, 2011 and 2010, we reported unrealized appreciation of \$10.0 million and \$18.7 million, respectively. The change from the prior year was the result of changes in the leveraged credit markets. On December 31, 2011 and September 30, 2011, net unrealized depreciation on investments totaled \$28.7 million and \$38.8 million, respectively.

For the three months ended December 31, 2011 and 2010, our Credit Facility value increased by \$1.1 million and \$6.6 million, respectively. The change from prior year was primarily the result of the Credit Facility approaching maturity. On December 31, 2011 and September 30, 2011, net unrealized depreciation on our Credit Facility totaled \$1.0 million and \$2.1 million, respectively.

Net Increase in Net Assets Resulting from Operations

Net increase in net assets resulting from operations totaled \$15.8 million, or \$0.34 per share, for the three months ended December 31, 2011. This compares to a net increase in net assets resulting from operations which totaled \$25.5 million, or \$0.71 per share, for the three months ended December 31, 2010. This decrease in net assets from operations is due to the continued growth in net investment income as a result of growing our portfolio, offset by the appreciation in the value of our Credit Facility as it approaches maturity and depreciation of our investments.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived from our Credit Facility, SBA debentures and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our Credit Facility, the SBA debentures, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

We may raise additional equity or debt capital through both registered offerings off a shelf registration and private offerings of securities, by securitizing a portion of our investments, among other sources. Any future additional debt capital we incur, to the extent it is available under current credit market conditions, will be issued at a higher cost and on less favorable terms and conditions than our current Credit Facility. We continuously monitor conditions in the credit markets and seek opportunities to enhance our debt structure considering our Credit Facility matures in June 2012. We are in advanced discussions with lenders regarding a new Credit Facility to replace our existing Credit Facility, which matures in June 2012. Furthermore, our Credit Facility availability depends on various covenants and restrictions as discussed below. The primary use of existing funds and any funds raised in the future is expected to be for repayment of indebtedness, investments in portfolio companies, cash distributions to our shareholders or for other general corporate purposes. See "Recent Developments" for more information.

Table of Contents

On June 25, 2007, we entered into the Credit Facility, with various lenders and SunTrust Bank, as administrative agent for the lenders. As of December 31, 2011 and September 30, 2011, we had outstanding borrowings of \$192.0 million and \$240.9 million under the Credit Facility, with a weighted average interest rate of 1.28% and 1.27%, exclusive of the fee on undrawn commitment of 0.20%, and \$123.0 million and \$74.1 million of unused borrowing capacity, respectively.

Under our Credit Facility, the lenders agreed to extend us credit in an initial aggregate principal or face amount not exceeding \$315.0 million outstanding at any one time. The Credit Facility is a revolving facility, with a stated maturity date of June 25, 2012, and is secured by substantially all of our investment portfolio assets, except for those assets of SBIC LP. Pricing of borrowings under our Credit Facility is set at 100 basis points over LIBOR.

Our Credit Facility contains affirmative and restrictive covenants, including maintenance of a minimum shareholders' equity of the greater of (i) 40% of the total assets of PennantPark Investment and its subsidiaries as of the last day of any fiscal quarter and (ii) the sum of (A) \$120,000,000 plus (B) 25% of the net proceeds from the sale of equity interests in us and our subsidiaries after the closing date of the Credit Facility and maintenance of a ratio of total assets (less total liabilities other than indebtedness) to total indebtedness, in each case of PennantPark Investment, of not less than 2.0:1.0 (excluding, in such computation, any exemptive relief granted by the SEC with respect to the indebtedness of any SBIC subsidiary). In addition to the asset coverage ratio described in the preceding sentence, borrowings under our Credit Facility (and the incurrence of certain other permitted debt) are subject to compliance with a borrowing base that will apply different advance rates to different types of assets in PennantPark Investment's portfolio. As of December 31, 2011, we were in compliance with the terms of our Credit Facility.

In accordance with the 1940 Act, with certain limited exceptions, the PennantPark Investment is only allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. As of December 31, 2011, we have excluded the SBA debentures from our asset coverage ratio pursuant to SEC exemptive relief.

For the three months ended December 31, 2011 and December 31, 2010, we did not sell any shares of common stock below the then current NAV per share. Any decision to sell shares below the then current net asset value per share of our common stock in one or more offerings is subject to shareholder approval and the determination by our board of directors that such issuance and sale is in our and our stockholders' best interests. Any sale or other issuance of shares of our common stock at a price below net asset value per share has resulted and will continue to result in an immediate dilution to our stockholder's interest in our common stock and a reduction of our net asset value per share.

SBIC LP is able to borrow funds from the SBA against regulatory capital (which approximates equity capital) that is paid-in and is subject to customary regulatory requirements. We have committed and funded SBIC LP with \$75.0 million of equity capital, and had SBA debentures outstanding of \$150.0 million. We had \$41.1 million of cash in SBIC LP as of December 31, 2011. SBA debentures are non-recourse to us, have a 10-year maturity, and may be prepaid at any time without penalty. The interest rate of SBA debentures is fixed at the time of issuance, often referred to as pooling, at a market-driven spread over 10-year U.S. Treasury Notes. SBA current regulations limit the amount that SBIC LP may borrow to a maximum of \$150.0 million, which is up to twice its regulatory capital.

As of December 31, 2011, \$150.0 million in debt commitments were fully drawn with a weighted average interest rate of 3.70% exclusive of the 3.43% in upfront fees (4.04% inclusive of the upfront fees). The SBA debentures upfront fees of 3.43% consist of a commitment fee of 1.00% and an issuance at a 2.43% discount to face. Both fees are amortized over the lives of the loans. Our fixed rate SBA debentures as of December 31, 2011 and September 30, 2011 are as follows:

<u>Issuance Dates</u>	<u>Maturity</u>	<u>All-in Coupon Rate ⁽¹⁾</u>	<u>Principal Balance</u>
<u>Fixed Rate SBA Debentures</u>			
September 22, 2010	September 1, 2020	3.50%	\$ 500,000
March 29, 2011	March 1, 2021	4.46%	44,500,000
September 21, 2011	September 1, 2021	3.38%	105,000,000
		<u>3.70%</u>	<u>\$150,000,000</u>

(1) Excludes 3.43% of upfront fees.

[Table of Contents](#)

The SBIC program is designed to stimulate the flow of capital into eligible businesses. Under SBA regulations, SBIC LP is subject to regulatory requirements, including making investments in SBA eligible businesses, investing at least 25% of regulatory capital in eligible smaller businesses, as defined under the 1958 Act, placing certain limitations on the financing terms of investments, prohibiting investment in certain industries and requiring capitalization thresholds that limit distributions to us, and is subject to periodic audits and examinations of its financial statements that are prepared on a basis of accounting other than U.S. GAAP (for example, fair value, as defined under ASC 820, is not required to be used for assets or liabilities for such compliance reporting). As of December 31, 2011, SBIC LP was in compliance with its regulatory requirements.

On June 1, 2011, we received exemptive relief from the SEC allowing us to modify the asset coverage ratio requirement to exclude the SBA debentures from our asset coverage calculation. Accordingly, our ratio of total assets on a consolidated basis to outstanding indebtedness may be less than 200%, which while providing increased investment flexibility, also increases our exposure to risks associated with leverage.

Our net asset value may decline as a result of economic conditions in the United States. Our continued compliance with the covenants under our Credit Facility and SBA debentures depend on many factors, some of which are beyond our control. Material net asset devaluation could have a material adverse effect on our operations and could require us to reduce our borrowings under our Credit Facility and SBA debentures in order to comply with certain covenants, including the ratio of total assets to total indebtedness.

Our operating activities provided cash of \$31.7 million for the three months ended December 31, 2011, primarily from net proceeds from the disposition of investments, and our financing activities used cash of \$61.2 million for the same period, primarily from net repayments under our Credit Facility.

Our operating activities used cash of \$27.3 million for the three months ended December 31, 2010, primarily from net purchases of investments, and our financing activities provided cash of \$28.5 million for the same period, primarily from proceeds on issuance of SBA debentures and net borrowings on our Credit Facility.

Contractual Obligations

A summary of our significant contractual payment obligations as of December 31, 2011 including, borrowings under our multi-currency Credit Facility and other contractual obligations, are as follows:

	Payments due by period (in millions)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Credit Facility ⁽¹⁾	\$192.0	\$ 192.0	\$ —	\$ —	\$ —
SBA debentures	150.0	—	—	—	150.0
Subtotal debt outstanding ⁽²⁾	342.0	192.0	—	—	150.0
Unfunded investments ⁽³⁾	36.3	18.6	17.2	—	0.5
Total contractual obligations	\$378.3	\$ 210.6	\$17.2	\$ —	\$ 150.5

- (1) As of December 31, 2011, we had \$123.0 million of unused borrowing capacity under our Credit Facility, subject to various restrictions and covenants.
- (2) The weighted average interest rate on the total debt outstanding as of December 31, 2011 was 2.29% exclusive of the fee on the undrawn commitment of 0.20% on the Credit Facility and 3.43% of upfront fees on SBIC LP's SBA debentures.
- (3) Unfunded debt investments described in the Consolidated Statement of Assets and Liabilities represent unfunded delayed draws on investments.

We have entered into certain contracts under which we have material future commitments. Under our Investment Management Agreement, which was renewed in February 2012, PennantPark Investment Advisers serves as our Investment Adviser in accordance with the terms of that Investment Management Agreement. PennantPark Investment, through the Investment Adviser, provides similar services to SBIC LP under its investment management agreement with us. The SBIC LP investment management agreement does not affect the management or incentive fees that we pay to the Investment Adviser on a consolidated basis. Payments under our Investment Management Agreement in each reporting period are equal to (1) a management fee equal to a percentage of the value of our gross assets and (2) an incentive fee based on our performance. See Note 3 to the Consolidated Financial Statements.

[Table of Contents](#)

Under our Administration Agreement, which was renewed in February 2012, PennantPark Investment Administration furnishes us with office facilities and administrative services necessary to conduct our day-to-day operations. PennantPark Investment, through the Administrator, provides similar services to SBIC LP under its administration agreement, which is intended to have no effect on the consolidated administration fee. If requested to provide managerial assistance to our portfolio companies, we or PennantPark Investment Administration will be paid an additional amount based on the services provided, which amount will not in any case exceed the amount we receive from the portfolio companies for such services. Payment under our Administration Agreement is based upon our allocable portion of the Administrator's overhead in performing its obligations under our Administration Agreement, including rent, technology systems, insurance and our allocable portion of the costs of our chief compliance officer, chief financial officer and their respective staffs. See Note 3 to the Consolidated Financial Statements.

If any of our contractual obligations discussed above are terminated, our costs under new agreements that we enter into may increase. In addition, we will likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under our Investment Management Agreement and our Administration Agreement. Any new investment management agreement would also be subject to approval by our stockholders.

Recent Developments

Subsequent to December 31, 2011, we completed a public offering of 10,350,000 shares of common stock, including the underwriters' over-allotment option, at a public offering price of \$10.55 per share, raising approximately \$109,192,500 in gross proceeds.

We are currently in discussions with our existing lenders and others to amend and restate our existing \$315.0 million senior secured revolving Credit Facility which is scheduled to mature in June of this year. We currently expect the amended and restated credit facility to be at least \$350 million, priced at LIBOR +275 with an unused fee of 50 basis points, to have a four-year maturity, with a one-year term out period following its third year, to have the same security to the same extent as in place for our existing Credit Facility and to include customary covenants, including a minimum asset coverage and minimum equity covenant. The amended and restated credit facility is not fully committed and the size and terms of such credit facility remain subject to change. Further, no assurances can be given that we will successfully enter into such an amended and restated credit facility.

Subsequent to December 31, 2011, Standard and Poor's Ratings Services and Fitch Ratings Services assigned us an investment grade rating of BBB-.

Since December 31, 2011, we have invested \$73 million.

Off-Balance Sheet Arrangements

We currently engage in no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices.

Distribution

In order to qualify as a RIC and to not be subject to corporate-level tax on income, we are required, under Subchapter M of the Code, to distribute annually dividends of at least 90% of the sum of our ordinary income and realized net short-term capital gains, if any, out of the assets legally available for distribution. Although not required for us to maintain our RIC tax status, in order to preclude the imposition of a 4% nondeductible federal excise tax imposed on RICs, we may distribute during each calendar year an amount at least equal to the sum of (1) 98% of our ordinary income for the calendar year, (2) 98.2% of our realized net capital gains for the one-year period ending on October 31 of the calendar year and (3) any ordinary income and net capital gains for preceding years that were not distributed during such years. In addition, although we may distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may retain such net capital gains or ordinary income to provide us with additional liquidity. For the three months ended December 31, 2011 and 2010, we have elected to retain a portion of our calendar year income and record an excise tax of approximately \$0.1 million, respectively.

During the three months ended December 31, 2011 and 2010, we declared distributions of \$0.28 and \$0.26 per share, respectively, for total distributions of \$12.8 million and \$9.4 million, respectively. We monitor available net investment income to determine if a tax return of capital may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, a portion of those distributions may be deemed to be a tax return of capital to our common stockholders. Tax characteristics of all distributions will be reported to stockholders on Form 1099-DIV after the end of the calendar year.

We intend to continue to make quarterly dividends to our stockholders. Our quarterly dividends, if any, are determined by our board of directors.

[Table of Contents](#)

We maintain an “opt out” dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders’ cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically “opt out” of the dividend reinvestment plan so as to receive cash dividends.

We may distribute our common stock as a dividend of our taxable income and a shareholder could receive a portion of the dividends declared and distributed by us in shares of our common stock with the remaining amount in cash. A shareholder will be considered to have recognized dividend income equal to the fair market value of the stock paid by us plus cash received with respect to such dividend. We have not elected to distribute stock as a dividend but reserve the right to do so.

We may not be able to achieve operating results that will allow us to make dividends and distributions at a specific level or to increase the amount of these dividends and distributions from time to time. In addition, we may be limited in our ability to make dividends and distributions due to the asset coverage test for borrowings applicable to us as a BDC under the 1940 Act and/or due to provisions in future credit facilities. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of RIC status. We cannot assure stockholders that they will receive any dividends and distributions at a particular level.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. As of December 31, 2011, our portfolio consisted of 63% fixed-rate and 37% variable-rate investments (including 29% with a LIBOR, or prime floor). The variable-rate loans are usually based on a floating LIBOR rate and typically have durations of three months after which they reset to current market interest rates. Variable rate investments subject to a floor generally reset by reference to the current market index after one to six months only if the index exceeds the floor. In regards to variable rate instruments with a floor, we do not benefit from increases in interest rates until such rates exceed the floor and thereafter benefit from market rates above any such floor.

Assuming that the current balance sheet were to remain constant, and no actions were taken to alter the existing interest rate sensitivity, a hypothetical immediate 1% change in interest rates may affect net income by more than 1% over a one-year horizon. Although management believes that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in the credit market, credit quality, size and composition of the assets on the balance sheet and other business developments that could affect net increase in net assets resulting from operations, or net income. Accordingly, no assurances can be given that actual results would not differ materially from the statement above.

Because we borrow money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds. In periods of declining interest rates, our cost of funds would decrease, which may reduce our net investment income. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

We may hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in benefits of lower interest rates with respect to our portfolio of investments with fixed interest rates. During the periods covered by this Report, we did not engage in interest rate hedging activities.

Item 4. Controls and Procedures

As of the period covered by this Report, we, including our chief executive officer and chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act). Based on that evaluation, our management, including the chief executive officer and chief financial officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic filings with the SEC are recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Neither we nor our Investment Adviser nor our Administrator is currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us, or against our Investment Adviser or Administrator. From time to time, we, our Investment Adviser or Administrator may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors

In addition to the other information set forth in this Report, you should consider carefully the factors discussed in Part I “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2011, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing our PennantPark Investment. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Reserved.

None.

Item 5. Other Information

None.

Item 6. Exhibits

Unless specifically indicated otherwise, the following exhibits are incorporated by reference to exhibits previously filed with the SEC:

- 3.1 Articles of Incorporation (Incorporated by reference to the Registrant's Pre-Effective Amendment No.1 to the Registration Statement on Form N-2/A (File No. 333-140092), filed on March 5, 2007).
- 3.2 Amended and Restated Bylaws of the Registrant (Incorporated by reference to Exhibit 3.2 to the Registrant's Annual Report on Form 10-K (File No. 814-00736), filed on November 16, 2011).
- 4.1 Form of Share Certificate (Incorporated by reference to Exhibit 99(d)(1) to the Registrant's Registration Statement on Form N-2 (File No. 333-150033), filed on April 2, 2008).
- 11 Computation of Per Share Earnings (included in the notes to the Consolidated Financial Statements contained in this Report).
- 31.1 * Certification of Chief Executive Officer pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, as amended.
- 31.2 * Certification of Chief Financial Officer pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, as amended.
- 32.1 * Certification of Chief Executive Officer pursuant to section 906 of The Sarbanes-Oxley Act of 2002.
- 32.2 * Certification of Chief Financial Officer pursuant to section 906 of The Sarbanes-Oxley Act of 2002.
- 99.1 Privacy Policy of the Registrant (Incorporated by reference to Exhibit 99.1 to the Registrant's Annual Report on Form 10-K (File No. 814-00736), filed on December 13, 2007).

* Filed herewith.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Arthur H. Penn, Chief Executive Officer of PennantPark Investment Corporation, certify that:

1. I have reviewed this Report on Form 10-Q of PennantPark Investment Corporation;
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the consolidated financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this Report;
4. The company's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the company, including its subsidiaries, is made known to us by others within those entities, particularly during the period in which this Report is being prepared; and
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles; and
 - c) Evaluated the effectiveness of the company's disclosure controls and procedures and presented in this Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - d) Disclosed in this Report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. The company's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.
